
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

For the quarterly period ended **June 30, 2006**, or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

For the transition period from _____ to _____

Commission File Number: **0-26128**

NorthWest Indiana Bancorp

(Exact name of registrant as specified in its charter)

Indiana

(State or other jurisdiction of incorporation or organization)

35-1927981

(I.R.S. Employer Identification Number)

9204 Columbia Avenue
Munster, Indiana

(Address of principal executive offices)

46321

(ZIP code)

Registrant's telephone number, including area code: (219) 836-4400

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

There were 2,791,895 shares of the registrant's Common Stock, without par value, outstanding at June 30, 2006.

NorthWest Indiana Bancorp

Notes to Consolidated Financial Statements

Note 1 — Basis of Presentation

The consolidated financial statements include the accounts of NorthWest Indiana Bancorp (the “Bancorp”), its wholly-owned subsidiary, Peoples Bank SB (the “Bank”), and the Bank’s wholly-owned subsidiaries, Peoples Service Corporation and NWIN, LLC. The Bancorp has no other business activity other than being a holding company for the Bank. The Bancorp’s earnings are dependent upon the earnings of the Bank. The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include all disclosures required by U.S. generally accepted accounting principles for complete presentation of financial statements. In the opinion of management, the consolidated financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the consolidated balance sheets of the Bancorp as of June 30, 2006 and December 31, 2005, and the consolidated statements of income and changes in stockholders’ equity for the three and six months ended June 30, 2006 and 2005, and cash flows for the six months ended June 30, 2006 and 2005. The income reported for the six-month period ended June 30, 2006 is not necessarily indicative of the results to be expected for the full year.

Note 2 — Use of Estimates

Preparing financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period, as well as the disclosures provided. Actual results could differ from those estimates. Estimates associated with the allowance for loan losses, fair values of financial instruments and status of contingencies are particularly susceptible to material change in the near term.

Note 3 — Concentrations of Credit Risk

The Bancorp grants residential, commercial real estate, commercial business and consumer loans to customers in its primary market area of Lake County, in northwest Indiana. Substantially all loans are secured by specific items of collateral including residences, business assets and consumer assets.

Note 4 — Reclassifications

Certain amounts reported in the December 31, 2005 consolidated financial statements and the June 30, 2005 Form 10-Q have been reclassified to conform to the June 30, 2006 presentation.

Note 5 — Earnings Per Share

Earnings per common share is computed by dividing net income by the weighted average number of common shares outstanding. A reconciliation of the numerators and denominators of the basic and diluted earnings per common share computation for the three and months ended June 30, 2006 and June 30, 2005 is presented below:

	(Dollars in thousands, except per share data)			
	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Basic earnings per common share:				
Net income as reported	<u>\$ 1,653</u>	<u>\$ 1,648</u>	<u>\$ 3,329</u>	<u>\$ 3,255</u>
Weighted average common shares outstanding:	<u>2,791,111</u>	<u>2,782,678</u>	<u>2,789,542</u>	<u>2,779,711</u>
Basic earnings per common share:	<u>\$ 0.59</u>	<u>\$ 0.59</u>	<u>\$ 1.19</u>	<u>\$ 1.17</u>
Diluted earnings per common share:				
Net income as reported	<u>\$ 1,653</u>	<u>\$ 1,648</u>	<u>\$ 3,329</u>	<u>\$ 3,255</u>
Weighted average common shares outstanding:	2,791,111	2,782,678	2,789,542	2,779,711
Add: dilutive effect of assumed stock option exercises:	<u>21,489</u>	<u>42,044</u>	<u>22,084</u>	<u>42,387</u>
Weighted average common and dilutive potential common shares outstanding:	<u>2,812,489</u>	<u>2,824,722</u>	<u>2,811,626</u>	<u>2,822,098</u>
Diluted earnings per common share:	<u>\$ 0.58</u>	<u>\$ 0.58</u>	<u>\$ 1.18</u>	<u>\$ 1.15</u>

Note 6 — Stock Based Compensation

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123R (FAS 123R), “Share-Based Payment”, which is a revision of Statement of Financial Accounting Standards No. 123 (FAS 123), “Accounting for Stock-Based Compensation”.

FAS 123R eliminates accounting for share-based compensation transactions using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25 (APB 25), “Accounting for Stock Issued to Employees”, and requires instead that such transactions be accounted for using a fair value based method. FAS 123R became effective January 1, 2006. Beginning January 1, 2006, the Bancorp adopted FAS 123R utilizing the modified prospective accounting method. Under the modified prospective method, the financial statements will not restate compensation expense for prior periods. FAS 123R requires companies to record compensation cost for stock options provided to employees in return for employment service. The cost is measured at the fair value of the options when granted, and this cost is expensed over the employment service period, which is normally the vesting period of the options. This will apply to awards granted or modified in fiscal years beginning in 2006. Compensation cost will also be recorded for prior option grants that vest after the date of adoption. The effect on results of operations will depend on the level of future option grants and the calculation of the fair value of the options granted at such future date, as well as the vesting periods provided, and so cannot currently be predicted. During the three months ended June 30, 2006, option related compensation expense of \$10,000 and tax benefit of \$4,000 were recorded. For the six months ended June 30, 2006, option related compensation expense of \$19,000 and tax benefit of \$9,000 were recorded. Existing options that will vest after adoption date are expected to result in additional compensation expense of approximately \$37,000 in 2006, \$22,000 in 2007 and \$9,000 in 2008.

A summary of option activity under the Bancorp’s stock option plan for the six months ended June 30, 2006 is presented below:

Options	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 1, 2006	97,385	\$ 22.63		
Granted	0	0		
Exercised	(6,429)	\$ 20.59		
Forfeited or expired	<u>0</u>	<u>0</u>		
Outstanding at June 30, 2006	<u>90,956</u>	<u>\$ 22.78</u>	<u>4.8</u>	<u>\$ 756,922</u>
Exercisable at June 30, 2006	<u>45,331</u>	<u>\$ 20.31</u>	<u>3.4</u>	<u>\$ 491,984</u>

During the six months ended June 30, 2006 and 2005, no stock options were granted from the Bancorp’s stock option plan. The total intrinsic value of options exercised during the six months ended June 30, 2006 and 2005, was \$70,239 and \$437,018.

[Table of Contents](#)

Note 6 — Stock Based Compensation (continued)

The following pro forma information presents net income and basic and diluted earnings per share had the fair value recognition provisions of FAS 123 for stock-based employee compensation been used for periods prior to the Bancorp's adoption of FAS 123R:

	(Dollars in thousands, except per share data)	
	Three Months Ended	Six Months Ended
	June 30, 2005	June 30, 2005
Net income as reported	\$ 1,648	\$ 3,255
Proforma net income	\$ 1,637	\$ 3,233
Weighted average common shares outstanding:		
Basic	2,782,678	2,779,711
Diluted	2,824,722	2,822,098
Reported earnings per common share:		
Basic	0.59	1.17
Diluted	0.58	1.15
Proforma earnings per common share:		
Basic	0.59	1.16
Diluted	0.58	1.15

Note 7 — Effect of Newly Issued Not Yet Effective Accounting Standards

In June 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Bancorp is currently evaluating the impact that the adoption of FIN 48 will have on the financial statements

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Summary

NorthWest Indiana Bancorp (the "Bancorp") is a bank holding company registered with the Board of Governors of the Federal Reserve System. Peoples Bank SB, an Indiana savings bank, is a wholly-owned subsidiary of the Bancorp. The Bancorp has no other business activity other than being the holding company for the Bank.

At June 30, 2006, the Bancorp had total assets of \$622.6 million, total loans of \$481.2 million and total deposits of \$503.1 million. Stockholders' equity totaled \$47.5 million or 7.6% of total assets, with book value per share at \$17.00. Net income for the quarter ended June 30, 2006, was \$1.7 million, or \$0.59 earnings per common share for basic and \$0.58 for diluted calculations. The annualized return on average assets (ROA) was 1.07%, while the annualized return on average stockholders' equity (ROE) was 13.89%, for the three months ended June 30, 2006. Net income for the six months ended June 30, 2006, was \$3.3 million, or \$1.19 earnings per common share for basic and \$1.18 for diluted calculations. The annualized return on average assets (ROA) was 1.08%, while the annualized return on average stockholders' equity (ROE) was 14.06%, for the six months ended June 30, 2006.

Financial Condition

During the six months ended June 30, 2006, total assets decreased by \$4.9 million (0.8%), with interest-earning assets decreasing by \$3.1 million (0.5%). At June 30, 2006, interest-earning assets totaled \$579.1 million and represented 93.0% of total assets.

Loans receivable totaled \$481.2 million at June 30, 2006, compared to \$469.0 million at December 31, 2005. At June 30, 2006, loans receivable represented 83.1% of interest-earning assets, 77.3% of total assets and 95.6% of total deposits. The loan portfolio, which is the Bancorp's largest asset, is a significant source of both interest and fee income. The Bancorp's lending strategy stresses quality loan growth, product diversification, and competitive and profitable pricing. The loan portfolio includes \$40.7 million (8.5%) in construction and development loans, \$237.9 million (49.4%) in residential mortgage loans, \$16.7 million (3.5%) in multifamily loans, \$111.7 million (23.2%) in commercial real estate loans, \$3.7 million (0.8%) in consumer loans, \$52.3 million (10.9%) in commercial business and \$18.2 million (3.8%) in government and other loans. Adjustable rate loans comprised 55.8% of total loans at June 30, 2006. During the six months ended June 30, 2006, loans increased by \$12.1 million (2.6%). During the period, growth occurred in commercial real estate, multifamily, residential and commercial business loans. During the six-month period, loan growth was lower than projected as a result of increased commercial real estate loan pay-off activity.

The Bancorp is primarily a portfolio lender. Mortgage banking activities are generally limited to the sale of fixed rate mortgage loans with contractual maturities of 15 years or greater. These loans are identified as held for sale when originated and sold, on a case-by-case basis, in the secondary market as part of the Bancorp's efforts to manage interest rate risk. During the six months ended June 30, 2006, the Bancorp sold \$3.0 million in fixed rate mortgages originated for sale compared to \$2.6 million during the six months ended June 30, 2005. Net gains realized from sales for the six months ended June 30, 2006 totaled \$57 thousand compared to \$61 thousand for the six months ended June 30, 2005. At June 30, 2006, the Bancorp had \$116 thousand in loans that were classified as loans held for sale.

The primary objective of the Bancorp's investment portfolio is to provide for the liquidity needs of the Bancorp and to contribute to profitability by providing a stable flow of dependable earnings. Funds are generally invested in federal funds, interest bearing balances in financial institutions, U.S. government securities, federal agency obligations and obligations of state and local municipalities. The investment portfolio totaled \$97.8 million at June 30, 2006, compared to \$113.1 million at December 31, 2005, a decrease of \$15.3 million (13.5%). At June 30, 2006, the investment portfolio represented 16.9% of interest-earning assets and 15.7% of total assets. The securities portfolio was comprised of 45.7% in U.S. government agency debt securities, 36.2% in U.S. government agency mortgage-backed securities and collateralized mortgage obligations, and 18.1% in municipal securities. At June 30, 2006, securities available-for-sale ("AFS") totaled \$80.8 million or 85.5% of total securities. AFS securities are those the Bancorp may decide to sell if needed for liquidity, asset-liability management or other reasons. In addition, at June 30, 2006, the Bancorp had \$3.3 million in Federal Home Loan Bank (FHLB) stock. During the six months ended June 30, 2006, the securities portfolio increased by \$4.4 million, while interest bearing balances in financial institutions decreased by \$20.1 million as a result of a \$25.0 million withdrawal of short-term local government funds.

[Table of Contents](#)

The allowance for loan losses (ALL) is a valuation allowance for probable incurred credit losses, increased by the provision for loan losses and decreased by charge-offs less recoveries. A loan is charged-off against the allowance by management as a loss when deemed uncollectible, although collection efforts continue and future recoveries may occur.

The determination of the amounts of the ALL and provisions for loan losses is based on management's current judgments about the credit quality of the loan portfolio with consideration given to all known relevant internal and external factors that affect loan collectibility as of the reporting date. The appropriateness of the current year provision and the overall adequacy of the ALL are determined through a disciplined and consistently applied quarterly process that combines a review of the current position with a Risk Assessment Worksheet.

The Risk Assessment Worksheet covers the residential, commercial real estate, commercial business, and consumer loan portfolios. Management uses a risk rating system to assist in determining the appropriate level for the ALL. Management assigns risk factors to non-performing loans; loans that management has internally classified as impaired; loans that management has internally classified as substandard, doubtful, loss, or watch; and, performing loans.

Risk factors for non-performing and internally classified loans are based on an analysis of the estimated collateral liquidation value for individual loans defined as substandard or doubtful. Estimated collateral liquidation values are based on established loan underwriting standards and adjusted for current mitigating factors on a loan-by-loan basis. Aggregate substandard loan collateral deficiencies are determined for residential, commercial real estate, commercial business, and consumer loan portfolios. These deficiencies are then stated as a percentage of the total substandard balances to determine the appropriate risk factors.

Risk factors for performing and non-classified loans are based on the average net charge-offs for the most recent five years, which are then stated as a percentage of average loans for the same period. Historical risk factors are calculated for residential, commercial real estate, commercial business, and consumer loans. The historical factors are then adjusted for current subjective risks attributable to: local and national economic factors; loan growth and changes in loan composition; organizational structure; composition of loan staff; loan concentrations; policy changes and out of market lending activity.

Non-performing loans include those loans that are 90 days or more past due and those loans that have been placed on non-accrual status. Non-performing loans totaled \$2.6 million at June 30, 2006 compared to \$2.1 million at December 31, 2005, an increase of \$453 thousand or 21%. The increase in non-performing loans at June 30, 2006 is related to one borrower with one commercial business loan and two loans secured by real estate totaling \$1.4 million that were placed in non-accrual status during the first quarter of 2006. These loans have been considered impaired at both June 30, 2006 and December 31, 2005. As a result, the impaired loan balances were included in the allowance for loan loss analysis at June 30, 2006 and December 31, 2005, and no additional provisions were required for these loans during 2006. The ratio of non-performing loans to total loans was 0.53% at June 30, 2006 compared to 0.45% at December 31, 2005. The ratio of non-performing loans to total assets was 0.41% at June 30, 2006, compared to 0.34% at December 31, 2005. The June 30, 2006 balance includes \$2.3 million in loans accounted for on a non-accrual basis and \$307 thousand in accruing loans which were contractually past due 90 days or more. Loans, internally classified as substandard totaled \$3.2 million at June 30, 2006 and December 31, 2005. No loans were classified as doubtful or loss. Substandard loans include non-performing loans and potential problem loans, where information about possible credit issues or other conditions causes management to question the ability of such borrowers to comply with loan covenants or repayment terms. In addition to identifying and monitoring non-performing and other classified loans, management maintains a list of watch loans. Watch loans represent loans management is more closely monitoring due to one or more factors that may cause the loan to become classified. Watch loans totaled \$8.7 million at June 30, 2006 and December 31, 2005.

At June 30, 2006 and December 31, 2005, included in non-performing loans are four loans totaling \$1.6 million have been classified as impaired. Included in the impaired loan balance are three loans to one commercial borrower totaling \$1.4 million that are secured by business assets and real estate and are personally guaranteed by the owner of the business. In addition, one commercial business loan totaling \$266 thousand continues to be classified as impaired. Impaired loans are loans where full payment under the loan terms is not expected. There were no other loans considered to be impaired loans as of, or for the quarter ended, June 30, 2006.

At June 30, 2006, management is of the opinion that there are no loans, except those discussed above, where known information about possible credit problems of borrowers causes management to have serious doubts as to the ability of such borrowers to comply with the present loan repayment terms and which may result in disclosure of such loans as non-accrual, past due or restructured loans. Also, at June 30, 2006, there were no other interest bearing assets that would be required to be disclosed as non-accrual, past due, restructured or potential problems if such assets were loans.

Table of Contents

Management does not presently anticipate that any of the non-performing loans or classified loans would materially impact future operations, liquidity or capital resources.

For the six months ended June 30, 2006, \$15 thousand in additions to the ALL account were required, compared to \$125 thousand for the quarter ended June 30, 2005. Recoveries, net of charge-offs, totaled \$28 thousand for the six months, compared to \$10 thousand for the six months ended June 30, 2005. Changes in the provision take into consideration management's current judgments about the credit quality of the loan portfolio, loan portfolio growth, changes in the portfolio mix and local economic conditions. In determining the provision for loan loss for the current period, management has given consideration to increased risks associated within the local economy, changes in loan mix and asset quality.

The ALL to total loans was 0.88% at June 30, 2006, compared to 0.89% at December 31, 2005, while the ALL to non-performing loans (coverage ratio) was 164.7% at June 30, 2006, compared to 198.1% at December 31, 2005. A consistently strong coverage ratio is an indicator that sufficient provisions for loan losses have been established. The June 30, 2006 balance in the ALL account of \$4.2 million is considered adequate by management after evaluation of the loan portfolio, past experience and current economic and market conditions. While management may periodically allocate portions of the allowance for specific problem loans, the whole allowance is available for any loan charge-offs that occur. The allocation of the ALL reflects performance and growth trends within the various loan categories, as well as consideration of the facts and circumstances that affect the repayment of individual loans, and loans which have been pooled as of the evaluation date, with particular attention given to non-performing loans and loans which have been classified as substandard, doubtful or loss. Management has allocated general reserves to both performing and non-performing loans based on current information available.

At June 30, 2006, the Bancorp had two properties in foreclosed real estate totaling \$134 thousand, compared to two properties totaling \$260 thousand at December 31, 2005.

Deposits are a fundamental and cost-effective source of funds for lending and other investment purposes. The Bancorp offers a variety of products designed to attract and retain customers, with the primary focus on building and expanding relationships. At June 30, 2006, deposits totaled \$503.1 million. During the six months ended June 30, 2006, deposits decreased by \$22.7 million (4.3%). Money market deposit accounts (MMDA's) decreased by \$17.6 million (12.3%), as a result of a \$25.0 million withdrawal of short-term local government funds. Certificates of deposit decreased by \$1.7 million (0.8%), as higher cost certificates of deposit were allowed to leave the Bank. During the current period, checking accounts decreased by \$1.5 million (1.4%) and savings balances decreased by \$1.7 million (0.8%). At June 30, 2006, the deposit base was comprised of 20.8% checking accounts, 25.0% MMDA's, 11.9% savings accounts and 42.3% certificates of deposit.

Borrowings are primarily used to fund asset growth not supported by deposit generation. At June 30, 2006, borrowed funds totaled \$68.2 million compared to \$51.2 million at December 31, 2005, an increase of \$17.1 million (33.4%). Retail repurchase agreements totaled \$14.3 million at June 30, 2006, compared to \$12.1 million at December 31, 2005, an increase of \$2.2 million (18.3%). Federal Home Loan Bank (FHLB) fixed, variable and line of credit advances totaled \$52.8 million at June 30, 2006, compared to \$37.5 million at December 31, 2005, an increase of \$15.3 million (40.7%). The increase in FHLB advances is a result of the Bancorp's strategy to fund earning asset growth with short-term borrowings, instead of higher priced term deposits. In addition, other short-term borrowings totaled \$1.2 million at June 30, 2006, compared to \$1.6 million at December 31, 2005, a decrease of \$406 thousand (25.7%).

Liquidity and Capital Resources

For the Bancorp, liquidity management refers to the ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, and pay dividends and operating expenses. In addition, liquidity is managed to meet the cash demands of depositors and its loan customers. Because profitability and liquidity are often conflicting objectives, management attempts to maximize the Bancorp's net interest margin by making adequate, but not excessive, liquidity provisions.

During the three months ended June 30, 2006, the Bancorp implemented a deposit reclassification strategy permissible under Federal Reserve Regulation D, which reduced the Bancorp's legal reserve requirement by approximately \$3.0 million. As a result, \$3.0 million in noninterest bearing balances became available for investing activities.

Changes in the liquidity position result from operating, investing and financing activities. Cash flows from operating activities are generally the cash effects of transactions and other events that enter into the determination of net income. The primary investing activities include loan originations, loan repayments, investments in interest bearing balances in financial institutions, and the purchase, sale, and maturity of

Table of Contents

investment securities. Financing activities focus almost entirely on the generation of customer deposits. In addition, the Bancorp utilizes borrowings (i.e., retail repurchase agreements and advances from the FHLB) as a source of funds.

During the six months ended June 30, 2006, cash and cash equivalents decreased by \$24.2 million compared to a \$17.2 million increase for the six months ended June 30, 2005. The primary sources of cash were proceeds from pay downs of securities, loan sales, loan repayments and proceeds from FHLB advances and other borrowed funds. The primary uses of cash were the purchase of securities, funding of withdrawals for short-term local government funds, repayment of FHLB advances, purchase of loan participations, purchase of bank owned life insurance and the payment of common stock dividends. Cash provided for operating activities totaled \$3.2 million for the six months ended June 30, 2006, compared to \$3.1 million for the period ended June 30, 2005. Cash outflows from investing activities totaled \$20.1 million for the current period, compared to \$17.8 million for the six months ended June 30, 2005. The change for the current period was primarily due to an increase in loan participations purchased. Net cash outflows from financing activities totaled \$7.3 million during the current period compared to net cash inflows of \$32.0 million for the six months ended June 30, 2005. The change in net cash inflows from financing activities was primarily due to a \$25.0 million withdrawal of short-term local government funds. The Bancorp paid dividends on common stock of \$1.9 million during the current six month period compared to \$1.8 million for the six months ended June 30, 2005.

At June 30, 2006, outstanding commitments to fund loans totaled \$88.5 million. Approximately 81% of the commitments were at variable rates. Management believes that the Bancorp has sufficient cash flow and borrowing capacity to fund all outstanding commitments and to maintain proper levels of liquidity.

Management strongly believes that maintaining a high level of capital enhances safety and soundness. During the six months ended June 30, 2006, stockholders' equity increased by \$1.0 million (2.2%). The increase was primarily a result of the Bancorp's \$3.3 million in net income for the current six month period. The Bancorp declared \$2.0 million in cash dividends for the six month period ended June 30, 2006. The net unrealized loss on available-for-sale securities, net of tax was \$528 thousand for the current period. During the current six month period, the Bancorp received \$154 thousand from the issuance of Bancorp common stock from stock-based compensation plans.

The Bancorp is subject to risk-based capital guidelines adopted by the Board of Governors of the Federal Reserve System (the "FRB"), and the Bank is subject to risk-based capital guidelines adopted by the FDIC. As applied to the Bancorp and the Bank, the FRB and FDIC capital requirements are substantially identical. The Bancorp and the Bank are required to maintain a total risk-based capital ratio of 8%, of which 4% must be Tier 1 capital. In addition, the FRB and FDIC regulations provide for a minimum Tier 1 leverage ratio (Tier 1 capital to adjusted average assets) of 3% for financial institutions that meet certain specified criteria, including that they have the highest regulatory rating and are not experiencing or anticipating significant growth. All other financial institutions are required to maintain a Tier 1 leverage ratio of 3% plus an additional cushion of at least one to two percent.

The following table shows that, at June 30, 2006, and December 31, 2005, the Bancorp's capital exceeded all regulatory capital requirements. The Bancorp's and the Bank's regulatory capital ratios were substantially the same at both dates. The dollar amounts are in millions.

	Actual		Required for adequate capital		To be well capitalized	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
At June 30, 2006						
Total capital to risk-weighted assets	\$ 53.3	11.6%	\$ 36.7	8.0%	\$ 45.9	10.0%
Tier 1 capital to risk-weighted assets	\$ 49.1	10.7%	\$ 18.4	4.0%	\$ 27.5	6.0%
Tier 1 capital to adjusted average assets	\$ 49.1	7.9%	\$ 18.6	3.0%	\$ 30.9	5.0%
At December 31, 2005						
Total capital to risk-weighted assets	\$ 51.7	11.6%	\$ 35.6	8.0%	\$ 44.5	10.0%
Tier 1 capital to risk-weighted assets	\$ 47.5	10.7%	\$ 17.8	4.0%	\$ 26.7	6.0%
Tier 1 capital to adjusted average assets	\$ 47.5	7.9%	\$ 18.1	3.0%	\$ 30.2	5.0%

The Bancorp's ability to pay dividends to its shareholders is entirely dependent upon the Bank's ability to pay dividends to the Bancorp. Under Indiana law, the Bank may pay dividends from its undivided profits (generally, earnings less losses, bad debts, taxes and other operating expenses) as is considered expedient by the

Bank's Board of Directors. However, the Bank must obtain the approval of the Indiana Department of Financial Institutions for the payment of a dividend if the total of all dividends declared by the Bank during the current year, including the proposed dividend, would exceed the sum of retained net income for the year to date plus its retained net income for the previous two years. For this purpose, "retained net income" means net income as calculated for call report purposes, less all dividends declared for the applicable period. Moreover, the FDIC and the Federal Reserve Board may prohibit the payment of dividends if it determines that the payment of dividends would constitute an unsafe or unsound practice in light of the financial condition of the Bank. The aggregate amount of dividends, which may be declared by the Bank in 2006, without prior regulatory approval, approximates \$5,176,000 plus current 2006 net profits.

Results of Operations — Comparison of the Quarter Ended June 30, 2006 to the Quarter Ended June 30, 2005

Net income for the three months ended June 30, 2006 was \$1.7 million compared to \$1.6 million for the quarter ended June 30, 2005, an increase of \$4 thousand (0.3%). The earnings represent a ROA of 1.07% for the quarter ended June 30, 2006, compared to 1.10% for the quarter ended June 30, 2005. The ROE was 13.89% for the quarter ended June 30, 2006, compared to 14.60% for the quarter ended June 30, 2005.

Net interest income for the three months ended June 30, 2006 was \$4.9 million, a decrease of \$246 thousand (4.8%), compared to \$5.1 million for the quarter ended June 30, 2005. The decrease in net interest income has been negatively impacted by the flat treasury yield curve, lower than projected loan growth and checking account growth, and an increase in MMDA and certificate of deposit funding costs. The weighted-average yield on interest-earning assets was 5.98% for the three months ended June 30, 2006, compared to 5.34% for the three months ended June 30, 2005. The weighted-average cost of funds for the quarter ended June 30, 2006, was 2.64% compared to 1.65% for the quarter ended June 30, 2005. The impact of the 5.98% return on interest-earning assets and the 2.64% cost of funds resulted in an interest rate spread of 3.34% for the current quarter compared to 3.69% for the quarter ended June 30, 2005. During the current quarter, total interest income increased by \$1.2 million (16.4%) while total interest expense increased by \$1.5 million (64.3%). The net interest margin was 3.56% for the three months ended June 30, 2006, compared to 3.70% for the quarter ended June 30, 2005. On a tax equivalent basis, the Bancorp's net interest margin was 3.50% for the three months ended June 30, 2006, compared to 3.78% for the quarter ended June 30, 2005. Comparing the net interest margin on a tax equivalent basis more accurately compares the returns on tax-exempt loans and securities to those on taxable interest-earning assets.

During the three months ended June 30, 2006, interest income from loans increased by \$1.2 million (19.3%) compared to the three months ended June 30, 2005. The increase was due to higher average daily loan balances and an increase in the weighted-average yield. Average daily loan balances were affected by growth in commercial real estate loans, multifamily loans, residential loans and commercial business. The weighted-average yield on loans outstanding was 6.38% for the current quarter compared to 5.84% for the three months ended June 30, 2005. Loan balances averaged \$475.6 million for the current quarter, up \$39.9 million (9.2%) from \$435.7 million for the three months ended June 30, 2005. During the three months ended June 30, 2006, interest income on investments and other deposits decreased by \$13 thousand (1.2%) compared to the quarter ended June 30, 2005. The decrease was due to lower balances in interest-bearing balances in financial institutions. The weighted-average yield on securities and other deposits was 4.11% for the current quarter compared to 3.51% for the three months ended June 30, 2005. Securities and other deposits averaged \$101.1 million for the current quarter, down \$18.7 million (15.6%) from \$119.8 million for the three months ended June 30, 2005.

Interest expense for deposits increased by \$1.5 million (64.3%) during the current quarter compared to the three months ended June 30, 2005. The change was due to an increase in the weighted-average rate paid on deposits and increased average balances. The weighted-average rate paid on deposits for the three months ended June 30, 2006 was 2.49% compared to 1.49% for the quarter ended June 30, 2005. Total deposit balances averaged \$498.0 million for the current quarter, up \$1.5 million (0.3%) from \$496.5 million for the quarter ended June 30, 2005. Interest expense on borrowed funds increased by \$203 thousand (48.2%) during the current quarter due to an increase in the weighted-average rate paid and an increase in average daily balances. The weighted-average cost of borrowed funds was 3.69% for the current quarter compared to 3.24% for the three months ended June 30, 2005. Borrowed funds averaged \$68.0 million during the quarter ended June 30, 2006, an increase of \$15.8 million (30.3%) from \$52.2 million for the quarter ended June 30, 2005.

Noninterest income for the quarter ended June 30, 2006 was \$1.1 million, an increase of \$146 thousand (16.2%) from \$904 thousand for the quarter ended June 30, 2005. During the current quarter fees and service charges totaled \$740 thousand, an increase of \$136 thousand (22.5%) from \$604 thousand for the quarter ended

June 30, 2005. The change was primarily due to the Bancorp's recently implemented overdraft privilege program. Fees from Trust operations totaled \$174 thousand for the quarter ended June 30, 2006, an increase of \$22 thousand (13.2%) from \$152 thousand for the quarter ended June 30, 2005. Income from increases in the cash value of bank owned life insurance totaled \$97 thousand during the current quarter, compared to \$80 thousand for the three months ended June 30, 2005. Gains from loan sales totaled \$34 thousand for the current quarter, compared to \$33 thousand for the quarter ended June 30, 2005. No gains or losses from the sale of securities were realized during the current period, compared to gains of \$15 for the quarter ended June 30, 2005.

Noninterest expense for the quarter ended June 30, 2006 was \$3.559 million, down \$3 thousand (0.1%) from \$3.562 million for the three months ended June 30, 2005. During the current quarter, compensation and benefits totaled \$1.8 million, a decrease of \$53 thousand (2.8%) from \$1.9 million for the quarter ended June 30, 2005. The decrease in compensation and benefits is related to a reduction in the cost for medical benefits and incentive compensation. Occupancy and equipment totaled \$609 thousand for the current quarter, an increase of \$35 thousand (6.1%) compared to \$574 thousand for the quarter ended June 30, 2005. The increase was a result of additional facilities expense related to banking operations. Data processing expense totaled \$207 thousand for the three months ended June 30, 2006, an increase of \$12 thousand (6.2%) from \$195 thousand for the three months ended June 30, 2005. The change was a result of increased utilization of the Bancorp's core data processing system. Marketing expense related to banking products totaled \$72 thousand for the current quarter, an increase of \$4 thousand (5.9%) from \$68 thousand for the second quarter of 2005. Other expense totaled \$827 thousand for the quarter ended June 30, 2006, a decrease of \$1 thousand (0.1%) from \$828 thousand for the quarter ended June 30, 2005. The Bancorp's efficiency ratio was 59.8% for the quarter ended June 30, 2006, compared to 58.9% for the three months ended June 30, 2005. The ratio is determined by dividing total noninterest expense by the sum of net interest income and total noninterest income for the period.

Income tax expenses for the three months ended June 30, 2006 totaled \$722 thousand, compared to \$775 thousand for the three months ended June 30, 2005, a decrease of \$53 thousand (6.8%). The combined effective federal and state tax rates for the Bancorp was 30.4% for the three months ended June 30, 2006, compared to 32.0% for the three months ended June 30, 2005. The decrease was attributable to an increased investment in bank owned life insurance.

Results of Operations — Comparison of the Six Months Ended June 30, 2006 to the Six Months Ended June 30, 2005

Net income for the six months ended June 30, 2006 was \$3.33 million compared to \$3.26 million for the six months ended June 30, 2005, an increase of \$74 thousand (2.3%). The increase in net income is due to asset quality, increased noninterest income from banking activities and stable operating expenses. The earnings represent a ROA of 1.08% for the six months ended June 30, 2006, compared to 1.12% for the six months ended June 30, 2005. The ROE was 14.06% for the six months ended June 30, 2006, compared to 14.50% for the six months ended June 30, 2005.

Net interest income for the six months ended June 30, 2006 was \$9.9 million, a decrease of \$265 thousand (2.6%), compared to \$10.2 million for the six months ended June 30, 2005. The decrease in net interest income has been negatively impacted by the flat treasury yield curve, lower than projected loan growth and checking account growth, and an increase in MMDA and certificate of deposit funding costs. The weighted-average yield on interest-earning assets was 5.89% for the six months ended June 30, 2006, compared to 5.34% for the six months ended June 30, 2005. The weighted-average cost of funds for the six months ended June 30, 2006, was 2.48% compared to 1.59% for the six months ended June 30, 2005. The impact of the 5.89% return on interest-earning assets and the 2.48% cost of funds resulted in an interest rate spread of 3.40% for the current six months compared to 3.76% for the six months ended June 30, 2005. During the current six months, total interest income increased by \$2.5 million (17.4%) while total interest expense increased by \$2.8 million (65.8%). The net interest margin was 3.46% for the six months ended June 30, 2006, compared to 3.78% for the six months ended June 30, 2005. On a tax equivalent basis, the Bancorp's net interest margin was 3.56% for the six months ended June 30, 2006, compared to 3.86% for the six months ended June 30, 2005.

During the six months ended June 30, 2006, interest income from loans increased by \$2.2 million (17.8%) compared to the six months ended June 30, 2005. The increase was due to higher average daily loan balances and an increase in the weighted-average yield. Average daily loan balances were affected by growth in commercial real estate loans, multifamily loans, residential loans and commercial business. The weighted-average yield on loans outstanding was 6.30% for the current six months compared to 5.78% for the six months ended June 30, 2005. Loan balances averaged \$470.4 million for the current six months, up \$35.4 million (8.1%) from \$435.0 million for the six months ended June 30, 2005. During the six months ended June 30, 2006, interest income on investments and other deposits increased by \$269 thousand (14.6%) compared to the six months ended June 30, 2005. The increase was due to an increase in the weighted-average yield. The

[Table of Contents](#)

weighted-average yield on securities and other deposits was 4.04% for the current six months compared to 3.52% for the six months ended June 30, 2005. Securities and other deposits averaged \$104.6 million for the current six months, down \$181 thousand (0.2%) from \$104.8 million for the six months ended June 30, 2005.

Interest expense for deposits increased by \$2.5 million (74.2%) during the current six months compared to the six months ended June 30, 2005. The change was due to an increase in the weighted-average rate paid on deposits and increased average balances. The weighted-average rate paid on deposits for the six months ended June 30, 2006 was 2.35% compared to 1.41% for the six months ended June 30, 2005. Total deposit balances averaged \$502.7 million for the current six months, up \$22.4 million (4.7%) from \$480.3 million for the six months ended June 30, 2005. Interest expense on borrowed funds increased by \$263 thousand (31.7%) during the current six months due to an increase in the weighted-average rate paid and an increase in average daily balances. The weighted-average cost of borrowed funds was 3.62% for the current six months compared to 3.20% for the six months ended June 30, 2005. Borrowed funds averaged \$60.4 million during the six months ended June 30, 2006, an increase of \$8.4 million (16.1%) from \$52.0 million for the six months ended June 30, 2005.

Noninterest income for the six months ended June 30, 2006 was \$2.1 million, an increase of \$383 thousand (22.5%) from \$1.7 million for the six months ended June 30, 2005. During the current six months fees and service charges totaled \$1.5 million, an increase of \$340 thousand (30.4%) from \$1.1 million for the six months ended June 30, 2005. The change was primarily due to the Bancorp's recently implemented overdraft privilege program. Fees from Trust operations totaled \$336 thousand for the six months ended June 30, 2006, an increase of \$33 thousand (10.9%) from \$303 thousand for the six months ended June 30, 2005. Income from increases in the cash value of bank owned life insurance totaled \$172 thousand during the current six months, compared to \$160 thousand for the six months ended June 30, 2005. Gains from loan sales totaled \$57 thousand for the current six months, compared to \$61 thousand for the six months ended June 30, 2005. No gains or losses from the sale of securities were realized during the current period, compared to \$29 thousand for the six months ended June 30, 2005.

Noninterest expense for the six months ended June 30, 2006 was \$7.2 million, up \$201 thousand (2.9%) from \$7.0 million for the six months ended June 30, 2005. During the current six months, compensation and benefits totaled \$3.7 million, a decrease of \$35 thousand (0.9%) from \$3.8 million for the six months ended June 30, 2005. The decrease in compensation and benefits is related to a reduction in the cost for medical benefits and incentive compensation. Occupancy and equipment totaled \$1.2 million for the current six months, an increase of \$84 thousand (7.4%) compared to \$1.1 million for the six months ended June 30, 2005. The increase was a result of additional facilities expense related to banking operations. Data processing expense totaled \$409 thousand for the six months ended June 30, 2006, an increase of \$29 thousand (7.6%) from \$380 thousand for the six months ended June 30, 2005. The change was a result of increased utilization of the Bancorp's core data processing system. Marketing expense related to banking products totaled \$169 thousand for the current six months, an increase of \$30 thousand (21.6%) from \$139 thousand for the six months ended June 30, 2005. The increase in marketing expense is related to advertising the Bancorp's brand within local markets. Other expense totaled \$1.7 million for the six months ended June 30, 2006, an increase of \$92 thousand (5.9%) from \$1.6 million for the six months ended June 30, 2005. The increase was due to expense associated with third party professional services and the Bancorp's investment in limited partnerships. The Bancorp's efficiency ratio was 59.7% for the six months ended June 30, 2006, compared to 58.6% for the six months ended June 30, 2005. The ratio is determined by dividing total noninterest expense by the sum of net interest income and total noninterest income for the period.

Income tax expenses for the six months ended June 30, 2006 totaled \$1.50 million, compared to \$1.55 million for the six months ended June 30, 2005, a decrease of \$47 thousand (3.0%). The combined effective federal and state tax rate for the Bancorp was 31.1% for the six months ended June 30, 2006, compared to 32.2% for the six months ended June 30, 2005. The decrease was due to an increased investment in tax-exempt investments and bank owned life insurance.

Critical Accounting Policies

Critical accounting policies are those accounting policies that management believes are most important to the portrayal of the Bancorp's financial condition and that require management's most difficult, subjective or complex judgments. The Bancorp's critical accounting policies from December 31, 2005 remain unchanged.

Forward-Looking Statements

Statements contained in this report that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words or phrases "would be," "will allow," "intends to,"

[Table of Contents](#)

“will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” or similar expressions are also intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act. The Bancorp cautions readers that forward-looking statements, including without limitation those relating to the Bancorp’s future business prospects, interest income and expense, net income, liquidity, and capital needs are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to, among other things, factors identified in this report, including those identified in Item 1A of the Bancorp’s 2005 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Bancorp's primary market risk exposure is interest rate risk. Interest rate risk is the risk that the Bancorp's earnings and capital will be adversely affected by changes in interest rates. The primary approach to interest rate risk management is one that focuses on adjustments to the Bancorp's asset/liability mix in order to limit the magnitude of interest rate risk. The Board of Directors has delegated the responsibility for measuring, monitoring and controlling interest rate risk to the Bancorp's asset/liability capital and technology management committee (ALCTM). The ALCTM is responsible for developing and implementing interest rate risk management strategies, establishing and maintaining a system of limits and controls, and establishing and utilizing an interest rate risk measurement system. The ALCTM, which is made up of members of senior management, generally meets monthly with board presentations occurring quarterly.

Performance from an interest rate risk perspective can be measured in many ways. Methodologies used by the Bancorp focus on net interest income and the net economic value of equity. Net interest income is defined as interest income less interest expense. Variability in net interest income arises because its components — interest income and interest expense — do not change equally as rates vary. This mismatch occurs because individual assets and liabilities reprice differently as rates change. Factors which affect net interest income include changes in the level of interest rates, changes in the relationship between Bancorp yield rates and interest costs, changes in the volume of assets and liabilities outstanding, and changes in the composition or mix of assets and liabilities. Management uses rate shock (i.e., instantaneous and sustained parallel shifts in the yield curve in 1% increments up and down 2% for stress testing the net interest income under several rate change levels. In order to simulate activity, maturing balances are replaced with new balances at the new rate level and repricing balances are adjusted to the new rate shock level. The results are compared to limits set by the Board of Directors and are monitored to identify unfavorable trends. Net economic value of equity is the net present value of the Bancorp's portfolio of assets and liabilities. By marking-to-market the components of the balance sheet, management can compute the net economic value of equity. As rates change over time, the market values of Bancorp assets and liabilities will change, with longer-term products fluctuating more than short-term products. In most cases, rate-sensitive assets and liabilities will not have the same maturity characteristics. Therefore, as rates vary, the market value of the rate-sensitive assets will not change equally with the market value of rate-sensitive liabilities. This will cause the net economic value of equity to vary. The focus of the net economic value of equity is to determine the percentage decline in the net economic value of equity caused by a 2% increase or decrease in interest rates, whichever produces the larger decline. A large value indicates a large percentage decline in the net economic value of equity due to changes in interest rates and, thus, high interest rate sensitivity. A low value indicates a small percentage decline in the net economic value of equity due to changes in interest rates and, thus, low interest rate sensitivity. As with net interest income, the results are compared to limits set by the Board of Directors and are monitored to identify unfavorable trends.

Presented in the following tables is forward-looking information about the Bancorp's sensitivity to changes in interest rates as of June 30, 2006 and December 31, 2005. The tables incorporate the Bancorp's internal system generated data as related to the maturity and repayment/withdrawal of interest-earning assets and interest-bearing liabilities. Prepayment assumptions are based on published data. Present value calculations use current published market interest rates. For core deposits that have no contractual maturity, the table presents principal cash flows and, as applicable, related weighted-average interest rates based on the Bancorp's historical experience, management's judgment, and statistical analysis, as applicable, concerning their most likely withdrawal behaviors, but not as to when they could be repriced.

[Table of Contents](#)

June 30, 2006:

Change in rates	Net Interest Income			Net Economic Value of Equity		
	Amount	% Chg.	Policy Limit %	Amount	% Chg.	Policy Limit %
2%	\$ 20,325	-4.8%	-20.0%	\$ 56,321	-15.9%	-35%
1%	\$ 20,885	-2.2%	-7.5%	\$ 61,792	-7.8%	-15%
0%	\$ 21,348	0.0%		\$ 66,985	0.0%	
-1%	\$ 21,169	-0.8%	-7.5%	\$ 70,515	5.3%	-15%
-2%	\$ 20,740	-2.8%	-20.0%	\$ 70,902	5.8%	-35%

December 31, 2005:

Change in rates	Net Interest Income			Net Economic Value of Equity		
	Amount	% Chg.	Policy Limit %	Amount	% Chg.	Policy Limit %
2%	\$ 20,849	-2.9%	-20%	\$ 54,700	-14.5%	-35%
1%	\$ 21,206	-1.2%	-7.5%	\$ 59,368	-7.2%	-15%
0%	\$ 21,464	0.0%		\$ 64,004	0.0%	
-1%	\$ 21,014	-2.1%	-7.5%	\$ 66,431	3.8%	-15%
-2%	\$ 19,988	-6.9%	-20%	\$ 65,242	1.9%	-35%

The tables show that the Bancorp has managed interest rate risk within the policy limits set by the Board of Directors. At June 30, 2006, an increase in interest rates of 2% would have resulted in a 4.8% decrease in net interest income and a 15.9% decrease in the net economic value of equity compared to decreases of 2.9% and 14.5% at December 31, 2005. During the six months ended June 30, 2006, the Bancorp has managed interest rate risk by generally selling fixed rate loans with contractual maturities of 15 years and greater, maintaining the short duration of the securities portfolio, and implementing deposit funding and pricing strategies.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

The Bancorp maintains disclosure controls and procedures (as defined in Sections 13a – 15(e) and 15d – 15(e) of regulations promulgated under the Securities Exchange Act of 1934 (the “Exchange Act”) that are designed to ensure that information required to be disclosed by the Bancorp in the reports that it files or submits under the “Exchange Act” is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. These disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by the Bancorp in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Bancorp’s management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. The Bancorp’s chief executive officer and chief financial officer evaluate the effectiveness of the Bancorp’s disclosure controls and procedures as of the end of each quarter. Based on that evaluation as of June 30, 2006, the Bancorp’s chief executive officer and chief financial officer have concluded that such disclosure controls and procedures were effective as of that date in ensuring that information required to be disclosed by the Bancorp under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms.

(b) Changes in Internal Control Over Financial Reporting

There was no significant change in the Bancorp’s internal control over financial reporting identified in connection with the Bancorp’s evaluation of controls that occurred during the three months ended June 30, 2006 that has materially affected, or is reasonably likely to materially affect, the Bancorp’s internal control over financial reporting.

PART II — Other Information

Item 1. Legal Proceedings

The Bancorp is not party to any material legal proceedings. From time to time, the Bank is a party to ordinary routine litigation incidental to its business, including foreclosures.

Item 1A. Risk Factors

There are no matters reportable under this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There are no matters reportable under this item.

Item 3. Defaults Upon Senior Securities

There are no matters reportable under this item.

Item 4. Submission of Matters to a Vote of Security Holders

The Bancorp held its annual meeting of shareholders on April 19, 2006. At this meeting the shareholders:

1. Elected the following directors for a three-year term:

	For	Number of Votes Withheld	Against
David A. Bochnowski	1,948,589	7,008	—
James L. Wieser	1,922,330	27,291	5,976
Kenneth V. Krupinski	1,945,589	7,008	3,000
Anthony Puntillo, DDS, MSD	1,928,962	7,008	19,627

Other directors whose term of office as a director continued after the meeting include:

Frank J. Bochnowski	Edward J. Furticella
Leroy F. Cataldi	Joel Gorelick
Lourdes M. Dennison	Stanley E. Mize
Donald P. Fesko	

2. Ratified the appointment of Crowe Chizek and Company LLC as the auditors for the Bancorp for the year ending December 31, 2006.

Number of Votes	For	Against	Abstain
	1,634,852	50	320,695

Item 5. Other Information

There are no matters reportable under this item.

Item 6. Exhibits

(a) Exhibits.

Exhibit Number	Description
31.1	Rule 13a-14(a)/15d-14(a) Certification of Chief Executive Officer
31.2	Rule 13a-14(a)/15d-14(a) Certification of Chief Financial Officer
32.1	Section 1350 Certifications

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, David A. Bochnowski, certify that:

1. I have reviewed this quarterly report on Form 10-Q of NorthWest Indiana Bancorp;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report on Form 10-Q of NorthWest Indiana Bancorp (the "Company") for the quarterly period ended June 30, 2006, as filed with the Securities and Exchange Commission (the "Report"), each of David A. Bochnowski, Chairman of the Board and Chief Executive Officer of the Company, and Robert T. Lowry, Senior Vice President, Chief Financial Officer and Treasurer of the Company, hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
