

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

For the quarterly period ended June 30, 2024 or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

For the transition period from _____ to _____

Commission File Number: 001-40999

Finward Bancorp

(Exact name of registrant as specified in its charter)

Indiana
(State or other jurisdiction of incorporation
or organization)

35-1927981
(I.R.S. Employer Identification Number)

9204 Columbia Avenue
Munster, Indiana
(Address of principal executive offices)

46321
(ZIP code)

Registrant's telephone number, including area code: (219) 836-4400

N/A

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, no par value	FNWD	The NASDAQ Stock Market, LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer Non-accelerated filer
Smaller Reporting Company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There were 4,313,940 shares of the registrant's Common Stock, without par value, outstanding at August 9, 2024.

Right-of-use asset obtained in exchange for lease liability	16,140	-

See accompanying notes to consolidated financial statements.

Finward Bancorp
Notes to Condensed Consolidated Financial Statements
(unaudited)

Note 1 - Basis of Presentation

Organization and Description of Business

The consolidated financial statements include the accounts of Finward Bancorp (the “Bancorp” or “FNWD”) and Peoples Bank (the “Bank”), and the Bank’s wholly-owned subsidiaries, Peoples Service Corporation, NWIN, LLC; NWIN Funding, Incorporated, and Columbia Development Company, LLC. The Bancorp has no other business activity other than being a holding company for the Bank and the Bancorp’s earnings are primarily dependent upon the earnings of the Bank. The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include all disclosures required by U.S. generally accepted accounting principles for complete presentation of consolidated financial statements. In the opinion of management, the consolidated financial statements contain all adjustments necessary to present fairly the consolidated balance sheets of the Bancorp as of June 30, 2024, and December 31, 2023, and the consolidated statements of income, comprehensive income, and changes in stockholders’ equity for the three and six months ended June 30, 2024, and 2023, and consolidated statements of cash flows for the six months ended June 30, 2024, and 2023. The income reported for the six months ended June 30, 2024, is not necessarily indicative of the results to be expected for the full year.

The Notes to the Consolidated Financial Statements appearing in Finward Bancorp’s Annual Report on Form 10-K (2023 Annual Report), which include descriptions of significant accounting policies, should be read in conjunction with these interim financial statements. The Consolidated Balance Sheet at December 31, 2023, has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

Note 2 - Use of Estimates

Preparing financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period, as well as the disclosures provided. Actual results could differ from those estimates. Estimates associated with the allowance for credit losses, fair values of foreclosed real estate, loan servicing rights, investment securities, deferred tax assets, goodwill, and the status of contingencies are particularly susceptible to material change in the near term.

Note 3 – Accounting Pronouncements Recently Adopted or Issued

In June 2022, the FASB issued ASU No. 2022-03 “Fair Value Measurements (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions.” These amendments clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. This guidance is effective for public business entities for fiscal years, including interim periods within those fiscal years, beginning after December 15, 2023. The Bancorp adopted ASU 2022-03 effective January 1, 2024 without material effect on its accounting and disclosures.

In March 2023, the FASB issued Accounting Standards (ASU) No. 2023-02 “Investments Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method.” These amendments allow reporting entities to elect to account for qualifying tax equity investments using the proportional amortization method, regardless of the program giving rise to the related income tax credits. This guidance is effective for public business entities for fiscal years including interim periods within those fiscal years, beginning after December 15, 2023. The Bancorp adopted ASU 2023-02 effective January 1, 2024 without material effect on its accounting and disclosures.

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which requires all public entities to provide enhanced disclosures about significant segment expenses. The amendments in this ASU are to be applied retrospectively and are effective for our annual financial statements starting in fiscal 2024 and interim periods starting in fiscal 2025, with early adoption permitted. We are currently evaluating the impact of this accounting standard, but do not expect it to have a material impact on our consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which enhances transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid and to improve the effectiveness of income tax disclosures. This accounting standards update will be effective for us for fiscal year 2025, with early adoption permitted. We are currently evaluating the impact of this accounting standard, but do not expect it to have a material impact on our consolidated financial statements.

In March 2024, the FASB issued ASU 2024-01, Compensation—Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards, which provides illustrative guidance to help entities determine whether profits interest and similar awards should be accounted for as share-based payment arrangements within the scope of FASB Accounting Standards Codification (FASB ASC) 718, Compensation—Stock Compensation. This accounting standards update will be effective for us for fiscal year 2025, with early adoption permitted. We are currently evaluating the impact of this accounting standard, but do not expect it to have a material impact on our consolidated financial statements.

In March 2024, the FASB issued ASU 2024-02, Codification Improvements-Amendments to Remove References to the Concepts Statements, which removes references to various FASB Concepts Statements. Note that this ASU finalizes amendments proposed in Section A of Proposed ASU No. 2019-800, Codification Improvements, issued in November 2019. Amendments are effective for annual periods beginning after December 15, 2024. We do not expect it to have a material impact on our consolidated financial statements.

Note 4 - Securities

The estimated fair value of available-for-sale securities and the related gross unrealized gains and losses recognized in accumulated other comprehensive income were as follows:

	(Dollars in thousands)			
	Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
June 30, 2024				
U.S. government sponsored entities	\$ 8,884	\$ -	\$ (996)	\$ 7,888
U.S. treasury securities	-	-	-	-
Collateralized mortgage obligations and residential mortgage-backed securities	142,094	-	(27,313)	114,781
Municipal securities	263,866	-	(48,321)	215,545
Collateralized debt obligations	2,163	-	(792)	1,371
Total securities available-for-sale	\$ 417,007	\$ -	\$ (77,422)	\$ 339,585

	(Dollars in thousands)			
	Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
December 31, 2023				
U.S. government sponsored entities	\$ 8,884	\$ -	\$ (1,001)	\$ 7,883
U.S. treasury securities	-	-	-	-
Collateralized mortgage obligations and residential mortgage-backed securities	149,410	-	(25,946)	123,464
Municipal securities	278,813	60	(40,203)	238,670
Collateralized debt obligations	2,170	-	(813)	1,357
Total securities available-for-sale	\$ 439,277	\$ 60	\$ (67,963)	\$ 371,374

The cost basis and estimated fair value of available-for-sale debt securities at June 30, 2024, by contractual maturity, were as follows. Securities not due at a single maturity date, primarily collateralized mortgage obligations and residential mortgage-backed securities, are shown separately.

	(Dollars in thousands)	
	Available-for-sale	
	Cost Basis	Estimated Fair Value
June 30, 2024		
Due in one year or less	\$ 250	\$ 249
Due from one to five years	10,309	9,151
Due from five to ten years	21,812	19,283
Due over ten years	242,542	196,121
Collateralized mortgage obligations and residential mortgage-backed securities	142,094	114,781
Total	\$ 417,007	\$ 339,585

Sales of available-for-sale securities were as follows for the quarter ended:

	(Dollars in thousands)	
	June 30, 2024	June 30, 2023
Proceeds	\$ -	\$ 352
Gross gains	-	-
Gross losses	-	(48)

Sales of available-for-sale securities were as follows for the six months ended:

	(Dollars in thousands)	
	June 30, 2024	June 30, 2023
Proceeds	\$ 14,697	\$ 352
Gross gains	-	-
Gross losses	(531)	(48)

Accumulated other comprehensive income/(loss) balances, net of tax, related to available-for-sale securities, were as follows:

	(Dollars in thousands) Unrealized loss
Ending balance, March 31, 2023	\$ (55,895)
Current period change	(4,290)
Ending balance, June 30, 2023	<u>\$ (60,185)</u>

	(Dollars in thousands) Unrealized loss

Current period change	(7,326)
Ending balance, June 30, 2024	<u>\$ (58,939)</u>

Securities with market values of approximately \$ 332.0 million and \$ 324.1 million were pledged as of June 30, 2024 and December 31, 2023, respectively, as collateral for repurchase agreements, public funds, and for other purposes as permitted or required by law.

Securities with unrealized losses at June 30, 2024, and December 31, 2023 not recognized in income are as follows:

	(Dollars in thousands)						Percentage of Total Portfolio in Loss Position

Unrealized losses on securities have not been recognized into income because the securities are of high credit quality or have undisrupted cash flows. Management has the intent and ability to hold these securities for the foreseeable future, and the decline in fair value is largely due to changes in interest rates and volatility in securities markets. The fair values are expected to recover as the securities approach maturity.

Collateralized debt obligations with a cost basis of \$ 2.2 million and fair value of \$ 1.4 million at June 30, 2024 and December 31, 2023, had previously recorded impairment of \$173 thousand, which will not be recoverable until maturity of the security.

Accrued interest receivable on AFS debt securities totaled \$ 2.3 million at June 30, 2024, and \$ 2.4 million at December 31, 2023. These amounts are excluded from the estimate of credit losses. The Bancorp made the policy election to exclude accrued interest from the amortized cost basis of AFS debt securities and report accrued interest separately on the consolidated balance sheet.

Note 5 - Loans Receivable

The Bancorp's current lending programs are described below:

Residential Real Estate. The primary lending activity of the Bancorp has been the granting of conventional mortgage loans to enable borrowers to purchase existing homes, refinance existing homes, or construct new homes. Conventional loans are made up to a maximum of 97% of the purchase price or appraised value, whichever is less. For loans made in excess of 80% of value, private mortgage insurance is generally required in an amount sufficient to reduce the Bancorp's exposure to 80% or less of the appraised value of the property. Loans insured by private mortgage insurance companies can be made for up to 97% of value. Loans closed with over 20% of equity do not require private mortgage insurance because of the borrower's level of equity investment.

Fixed rate loans that originated generally conform to Freddie Mac guidelines for loans purchased under the 1-4 family program. Loan interest rates are determined based on secondary market yield requirements and local market conditions. Fixed rate mortgage loans may be sold and/or classified as held for sale to control exposure to interest rate risk.

The Bancorp's Adjustable-Rate Mortgage Loans ("ARMs") include offerings that have a three, five, seven or ten year fixed period. The ability of the Bancorp to successfully market ARM's depends upon loan demand, prevailing interest rates, volatility of interest rates, and terms offered by competitors.

Home Equity Line of Credit. The Bancorp offers a fixed and variable rate revolving line of credit secured by the equity in the borrower's home. Both products offer an interest only option where the borrower pays interest only on the outstanding balance each month. Equity lines will typically require a second mortgage appraisal and a second mortgage lender's title insurance policy. Loans are generally made up to a maximum of 89% of the appraised value of the property less any outstanding liens.

Fixed-term home improvement and equity loans are made up to a maximum of 85% of the appraised value of the improved property, less any outstanding liens. These loans are offered on both a fixed and variable rate basis with a maximum term of 240 months. All home equity loans are made on a direct basis to borrowers.

Commercial Real Estate and Multifamily Loans. Commercial real estate loans are typically made to a maximum of 80% of the appraised value. Such loans are generally made on an adjustable-rate basis. These loans are typically made for terms of 15 to 25 years. Loans with an amortizing term exceeding 15 years normally have a balloon feature calling for a full repayment within seven to ten years from the date of the loan. The balloon feature affords the Bancorp the opportunity to restructure the loan if economic conditions warrant. Commercial real estate loans include loans secured by commercial rental units, apartments, condominium developments, small shopping centers, owner occupied commercial/industrial properties, hospitality units and other retail and commercial developments.

While commercial real estate lending is generally considered to involve a higher degree of risk than single family residential lending due to the concentration of principal in a limited number of loans and the effects of general economic conditions on real estate developers and managers, the Bancorp has endeavored to reduce this risk in several ways. In originating commercial real estate loans, the Bancorp considers the feasibility of the project, the financial strength of the borrowers and lessees, the managerial ability of the borrowers, the location of the project and the economic environment. Management evaluates the debt coverage ratio and analyzes the reliability of cash flows, as well as the quality of earnings. All such loans are made in accordance with well-defined underwriting standards and are generally supported by personal guarantees, which represent a secondary source of repayment.

Loans for the construction of commercial properties are generally located within an area permitting physical inspection and regular review of business records. Projects financed outside of the Bancorp's primary lending area generally involve borrowers and guarantors who are or were previous customers of the Bancorp or projects that are underwritten according to the Bank's underwriting standards.

Construction and Land Development. Construction loans on residential properties are made primarily to individuals who are under contract with a general contractor. The maximum loan-to-value ratio is 89% of either the current appraised value or the cost of construction, whichever is less. Residential construction loans are typically made for a period of one year.

Loans are also made for the construction of commercial properties. All such loans are made in accordance with well-defined underwriting standards. Generally if the loans are not owner occupied, these types of loans require proof of intent to lease and a confirmed end-loan takeout. In general, loans made do not exceed 80% of the appraised value of the property. Commercial construction loans are typically made for periods not to exceed two years or date of occupancy, whichever is less.

Commercial Business and Farmland Loans. Although the Bancorp's priority in extending various types of commercial business loans changes from time to time, the basic considerations in determining the makeup of the commercial business loan portfolio are economic factors, regulatory requirements and money market conditions. The Bancorp seeks commercial loan relationships from the local business community and from its present customers. Prudent lending policies based upon sound credit analysis governs the extension of commercial credit. The following loans, although not inclusive, are considered preferable for the Bancorp's commercial loan portfolio: loans collateralized by liquid assets; loans secured by general use machinery and equipment; secured short-term working capital loans to established businesses secured by business assets; short-term loans with established sources of repayment and secured by sufficient equity and real estate; and unsecured loans to customers whose character and capacity to repay are firmly established.

Consumer Loans. The Bancorp offers consumer loans to individuals for personal, household or family purposes. Consumer loans are either secured by adequate collateral, or unsecured. Unsecured loans are based on the strength of the applicant's financial condition. All borrowers must meet current underwriting standards. The consumer loan program includes both fixed and variable rate products.

Manufactured Homes. The Bancorp purchases fixed rate closed loans from a third-party that are subject to Bancorp's underwriting requirements and secured by manufactured homes. The maturity date on these loans can range up to 25 years. In addition, these loans are partially secured by a reserve account held at the Bancorp.

Government Loans. The Bancorp is permitted to purchase non-rated municipal securities, tax anticipation notes and warrants within the local market area.

Loans consist of the following as of June 30, 2024, and December 31, 2023:

(Dollars in thousands)

	June 30, 2024	December 31, 2023

The Bancorp has established a standard loan grading system to assist management, lenders and review personnel in their analysis and supervision of the loan portfolio. The use and application of these grades by the Bancorp is uniform and conforms to regulatory definitions. The loan grading system is as follows:

1 – Superior Quality

Loans in this category are substantially risk free. Loans fully collateralized by a Bank certificate of deposit or Bank deposits with a hold are substantially risk free.

2 – Excellent Quality

The borrower generates excellent and consistent cash flow for debt coverage, excellent average credit scores, excellent liquidity and net worth and are reputable operators with over 15 years' experience. Current and debt to tangible net worth ratios are excellent. Loan to value is substantially below policy and collateral condition is excellent.

3 – Great Quality

The borrower generates more than sufficient cash flow to fund debt service and cash flow is improving. Average credit scores are very strong. Operators are reputable with significant years of experience. Liquidity, net worth, current and debt to tangible net worth ratios are very strong. Loan to value is significantly below policy and collateral condition is significantly above average.

4 – Above Average Quality

The borrower generates more than sufficient cash flow to fund debt service, but cash flow trends may be stable or slightly declining. Average credit scores are strong. The borrower is a reputable operator with many years of experience. Liquidity, net worth, current and debt to tangible net worth ratios are strong. Loan to value is below policy and collateral condition is above average.

5 – Average Quality

Borrowers are considered creditworthy and can repay the debt in the normal course of business, however, cash flow trends may be inconsistent or fluctuating. Average credit scores are satisfactory, and years of experience is acceptable. Liquidity and net worth are satisfactory. Current and debt to tangible net worth ratios are average. Loan to value is slightly below policy and the collateral condition is slightly above average.

6 – Pass

Borrowers are considered creditworthy, but financial condition may show signs of weakness due to internal or external factors. Cash flow trends may be declining annually. Average credit scores may be low but remain acceptable. The borrower has limited years of experience. Liquidity, net worth, current and debt to tangible net worth ratios are below average. Loan to value is nearing policy limits and collateral condition is average.

7 – Special Mention

A special mention asset has identified weaknesses that deserve Management's close attention. If left uncorrected, these weaknesses may result in deterioration of the repayment prospects for the asset or in the Bancorp's credit position at some future date. Special mention assets are not adversely classified and do not expose the Bancorp to sufficient risk to warrant adverse classification. There is still adequate protection by the current sound worth and paying capacity of the obligor or of the collateral pledged. The Special Mention rating is viewed as transitional and will be monitored closely.

Loans in this category may exhibit some of the following risk factors. Cash flow trends may be consistently declining or may be questionable. Debt coverage ratios may be at or near 1:1. Average credit scores may be very weak, or the borrower may have minimal years of experience. Liquidity, net worth, current and debt to tangible net worth ratios may be very weak. Loan to value may be at policy limits or may exceed policy limits. Collateral condition may be below average.

8 – Substandard

This classification consists of loans which are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged. Financial statements normally reveal some or all of the following: poor trends, lack of earnings and cash flow, excessive debt, lack of liquidity, and the absence of creditor protection. Loans are still considered collectible, but due to increased risks and defined weaknesses of the credit, some loss could be incurred in collection if the deficiencies are not corrected.

9 – Doubtful

Such loans have been placed on nonaccrual status and may be heavily dependent upon collateral possessing a value that is difficult to determine or based upon some near-term event which lacks clear certainty. These loans have all of the weaknesses of those classified as Substandard; however, based on existing conditions, these weaknesses make full collection of the principal balance highly improbable.

10 – Loss

Loans that are considered uncollectible and of such little value that continuing to carry them as assets is not warranted.

Performing loans are loans that are paying as agreed and are approximately less than ninety days past due on payments of interest and principal.

Non-performing loans include those loans that are 90 days or more past due and those loans that have been placed on non-accrual status.

Loan Modification Disclosures Pursuant to ASU 2022-02

The following table shows the amortized cost of loans that were both experiencing financial difficulty and modified during the three months and six months ended June 30, 2024, and year ended December 31, 2023, segregated by portfolio segment and type of modification. The percentage of the amortized cost of loans that were modified to borrowers in financial distress as compared to the amortized cost of each segment of financial receivable is also presented below.

For the three months ended June 30, 2024					
(Dollars in thousands)	Payment Delay	Term Extension	Interest Rate Reduction	Combination Term Extension and Interest Rate Reduction	% of Total Segment Financing Receivables
Residential Real Estate	\$ 132	\$ 241	\$ -	\$ -	0.08%
Total	\$ 132	\$ 241	\$ -	\$ -	0.02%

(Dollars in thousands)	Current	30-59 Days Past Due	60-89 Days Past Due	Greater Than 90 Days Past Due
Residential Real Estate	\$ 241	\$ -	\$ 132	\$ -
Total	\$ 241	\$ -	\$ 132	\$ -

For the six months ended June 30, 2024					
(Dollars in thousands)	Payment Delay	Term Extension	Interest Rate Reduction	Combination Term Extension and Interest Rate Reduction	% of Total Segment Financing Receivables
Residential Real Estate	\$ 132	\$ 1,491	\$ -	\$ -	0.34%
Total	\$ 132	\$ 1,491	\$ -	\$ -	0.11%

(Dollars in thousands)	Current	30-59 Days Past Due	60-89 Days Past Due	Greater Than 90 Days Past Due
Residential Real Estate	\$ 1,296	\$ 195	\$ 132	\$ -
Total	\$ 1,296	\$ 195	\$ 132	\$ -

For the year ended December 31, 2023					
(Dollars in thousands)	Payment Delay	Term Extension	Interest Rate Reduction	Combination Term Extension and Interest Rate Reduction	% of Total Segment Financing Receivables
Residential Real Estate	\$ -	\$ 868	\$ -	\$ -	0.18%
Total	\$ -	\$ 868	\$ -	\$ -	0.06%

(Dollars in thousands)	Current	30-59 Days Past Due	60-89 Days Past Due	Greater Than 90 Days Past Due
Residential Real Estate	\$ 868	\$ -	\$ -	\$ -
Total	\$ 868	\$ -	\$ -	\$ -

There were no commitments to lend additional amounts to the borrowers included in the previous tables.

The Bancorp closely monitors the performance of loans that have been modified to borrowers experiencing financial difficulty to understand the effectiveness of its modification efforts. The borrowers with term extension have had their maturity dates extended and as a result their monthly payments were reduced.

Upon the Bancorp's determination that a modified loan has subsequently been deemed uncollectible, the loan is written off. Therefore, the amortized cost of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.

Acquired Loan Purchase Discounts

As part of the fair value of loans receivable, there was a net fair value discount for loans acquired of \$ 4.8 million at June 30, 2024, compared to \$5.2 million at December 31, 2023.

Accretable yield, or income recorded for the six months ended June 30, is as follows:

<i>(dollars in thousands)</i>	Total
2023	\$ 245
2024	431

Accretable yield, or income expected to be recorded in the future is as follows:

<i>(dollars in thousands)</i>	Total
Remainder of 2024	\$ 337
2025	652
2026	482
2027	311
2028	295
2029 and thereafter	2,696
Total	\$ 4,773

Allowance for Credit Losses

The allowance for credit losses is established for current expected credit losses on the Bancorp's loan portfolio utilizing guidance in Accounting Standards Codification (ASC) Topic 326. The Bancorp adopted ASU 2016-13 on January 1, 2023.

The determination of the allowance requires significant judgment to estimate credit losses measured on a collective pool basis when similar risk characteristics exist, and for loans evaluated individually. In determining the allowance, the Bancorp estimates expected future losses for the loan's entire contractual term adjusted for expected payments when appropriate. The allowance estimate considers relevant available information, from internal and external sources relating to the historical loss experience, current conditions, and reasonable and supportable forecasts for the Bancorp's outstanding loan balances. The allowance is an estimation that reflects management's evaluation of expected losses related to the Bancorp's financial assets measured at amortized cost. To ensure that the allowance is maintained at an adequate level, a detailed analysis is performed on a quarterly basis and an appropriate provision is made to adjust the allowance.

The Bancorp categorizes the loan portfolio into nine segments based on similar risk characteristics. Loans within each segment are collectively evaluated using the probability of default ("PD")/loss given default ("LGD") methodology (PD/LGD). In creating the "current expected credit loss (CECL)" model as required under ASC 326, the Bancorp has established a two-year reasonable and supportable forecast period with a one-year straight line reversion to the long-term historical average. Due to its minimal loss history, the Bancorp elected to use peer data for a more reasonable calculation. The following table shows the changes in the allowance for credit losses, segregated by portfolio segment, for the three and six months ended June 30, 2024, and 2023.

The Bancorp's activity in the allowance for credit losses, by loan segment, is summarized below for the three months ended June 30, 2024:

<i>(Dollars in thousands)</i>	<u>Beginning Balance</u>	<u>Charge-offs</u>	<u>Recoveries</u>	<u>Provisions</u>	<u>Ending Balance</u>
Allowance for credit losses:					
Residential real estate	\$ 4,017	\$ -	\$ 10	\$ 270	\$ 4,297
Home equity	737	-	-	(10)	727
Commercial real estate	7,256	-	2	(355)	6,903
Construction and land development	3,456	-	-	(389)	3,067
Multifamily	957	(65)	31	(44)	879
Commercial business	2,135	-	7	63	2,205
Consumer	6	(26)	5	20	5
Manufactured homes	173	-	-	(16)	157
Government	68	-	-	22	90
Total	<u>\$ 18,805</u>	<u>\$ (91)</u>	<u>\$ 55</u>	<u>\$ (439)</u>	<u>\$ 18,330</u>

The Bancorp's activity in the allowance for credit losses, by loan segment, is summarized below for the three months ended June 30, 2023:

<i>(Dollars in thousands)</i>	<u>Beginning Balance</u>	<u>Charge-offs</u>	<u>Recoveries</u>	<u>Provisions</u>	<u>Ending Balance</u>
Allowance for credit losses:					
Residential real estate	\$ 5,068	\$ -	\$ 11	\$ (225)	\$ 4,854
Home equity	643	-	-	37	680
Commercial real estate	7,119	(360)	1	271	7,031
Construction and land development	3,229	-	-	370	3,599
Multifamily	1,059	-	86	(125)	1,020
Commercial business	2,095	(368)	101	222	2,050
Consumer	64	(21)	3	11	57
Manufactured homes	216	-	-	(50)	166
Government	75	-	-	(25)	50
Total	<u>\$ 19,568</u>	<u>\$ (749)</u>	<u>\$ 202</u>	<u>\$ 486</u>	<u>\$ 19,507</u>

The Bancorp's activity in the allowance for credit losses, by loan segment, is summarized below for the six months ended June 30, 2024:

<i>(Dollars in thousands)</i>	<u>Beginning Balance</u>	<u>Charge-offs</u>	<u>Recoveries</u>	<u>Provisions</u>	<u>Ending Balance</u>
Allowance for credit losses:					
Residential real estate	\$ 3,984	\$ -	\$ 20	\$ 293	\$ 4,297
Home equity	698	-	-	29	727
Commercial real estate	7,045	-	2	(144)	6,903
Construction and land development	4,206	-	-	(1,139)	3,067
Multifamily	933	(65)	31	(20)	879
Commercial business	1,649	-	9	548	2,205
Consumer	7	(44)	6	36	5
Manufactured homes	181	-	-	(24)	157
Government	65	-	-	25	90
Total	<u>\$ 18,768</u>	<u>\$ (109)</u>	<u>\$ 68</u>	<u>\$ (397)</u>	<u>\$ 18,330</u>

The Bancorp's activity in the allowance for credit losses, by loan segment, is summarized below for the six months ended June 30, 2023:

<i>(Dollars in thousands)</i>	<u>Beginning Balance</u>	<u>Adoption of ASC 326</u>	<u>PCD Gross-up</u>	<u>Charge-offs</u>	<u>Recoveries</u>	<u>Provisions</u>	<u>Ending Balance</u>
Allowance for credit losses:							
Residential real estate	\$ 3,021	\$ 1,688	\$ 535	\$ -	\$ 63	\$ (453)	\$ 4,854
Home equity	410	99	29	-	-	142	680
Commercial real estate	5,784	1,003	443	(372)	1	172	7,031
Construction and land development	1,253	1,735	-	-	-	611	3,599
Multifamily	1,007	141	-	-	86	(214)	1,020
Commercial business	1,365	320	5	(443)	148	655	2,050
Consumer	57	5	17	(40)	6	12	57
Manufactured homes	-	112	-	-	-	54	166
Government	-	55	-	-	-	(5)	50
Total	<u>\$ 12,897</u>	<u>\$ 5,158</u>	<u>\$ 1,029</u>	<u>\$ (855)</u>	<u>\$ 304</u>	<u>\$ 974</u>	<u>\$ 19,507</u>

A collateral dependent financial loan relies solely on the operation or sale of the collateral for repayment. In evaluating the overall risk associated with the loan, the Bancorp considers character, overall financial condition and resources, and payment record of the borrower; the prospects for support from any financially responsible guarantors; and the nature and degree of protection provided by the cash flow and value of any underlying collateral. However, as other sources of repayment become inadequate over time, the significance of the collateral's value increases and the loan may become collateral dependent.

The table below presents the amortized cost basis and allowance for credit losses ("ACL") allocated for collateral dependent loans in accordance with ASC 326, which are individually evaluated to determine expected credit losses.

(Dollars in thousands)

June 30, 2024						
	Real Estate	Equipment/Inventory	Accounts Receivable	Other	Total	ACL Allocation
Commercial Business	-	1,375	1,428	159	2,961	1,218
Commercial Real Estate	2,511	-	-	-	2,511	79
Construction Land Development	2,168	-	-	-	2,168	-
Multifamily	3,597	-	-	-	3,597	-
	<u>\$ 8,276</u>	<u>\$ 1,375</u>	<u>\$ 1,428</u>	<u>\$ 159</u>	<u>\$ 11,237</u>	<u>\$ 1,297</u>

(Dollars in thousands)

December 31, 2023						
	Real Estate	Equipment/Inventory	Accounts Receivable	Other	Total	ACL Allocation
Residential Real Estate	\$ 30	\$ -	\$ -	\$ -	\$ -	\$ 30
Commercial Business	-	1,583	1,557	192	3,332	738
Commercial Real Estate	2,541	-	-	-	2,541	53
Multifamily	4,244	-	-	-	4,244	85
	<u>\$ 6,815</u>	<u>\$ 1,583</u>	<u>\$ 1,557</u>	<u>\$ 192</u>	<u>\$ 10,117</u>	<u>\$ 906</u>

A deferred cost reserve is maintained for the portfolio of manufactured home loans that have been purchased. This reserve is available for use for manufactured home loan nonperformance and costs associated with nonperformance. If the segment performs in line with expectations, the deferred cost reserve is paid as a premium to the third-party originator of the loan. The unamortized balance of the deferred cost reserve totaled \$ 3.2 million and \$ 3.5 million as of June 30, 2024, and December 31, 2023, respectively, and is included in net deferred loan origination cost.

The following table presents non-accrual loans and loans past due over 90 days still on accrual by class of loans:

As of June 30, 2024	Nonaccrual with No Allowance for Credit Loss	Nonaccrual with Allowance for Credit Loss	Nonaccrual Loans in Total	Loans Past Due over 90 Days Still Accruing
Residential real estate	\$ 770	\$ 1,724	2,494	\$ 93
Home equity	148	303	451	-
Commercial real estate	1,906	605	2,511	201
Construction and land development	-	-	-	-
Multifamily	3,078	-	3,078	-
Commercial business	1,397	1,148	2,545	-
Consumer	-	-	-	-
Manufactured homes	-	-	-	-
Government	-	-	-	-
Total	\$ 7,298	\$ 3,781	\$ 11,079	\$ 294

As of December 31, 2023	Nonaccrual with No Allowance for Credit Loss	Nonaccrual with Allowance for Credit Loss	Nonaccrual Loans in Total	Loans Past Due over 90 Days Still Accruing
Residential real estate	\$ 442	\$ 1,251	\$ 1,693	\$ 1,131
Home equity	161	307	468	-
Commercial real estate	603	230	833	712
Construction and land development	-	-	-	-
Multifamily	2,357	1,358	3,715	-
Commercial business	1,724	1,173	2,897	-
Consumer	-	2	-	-
Manufactured homes	-	-	-	-
Government	-	-	-	-
Total	\$ 5,287	\$ 4,321	\$ 9,608	\$ 1,843

Accrued interest receivable on loans totaled \$ 5.4 million on June 30, 2024, and \$ 5.7 million on December 31, 2023, and is excluded from the estimate of credit losses. The Bancorp made the accounting policy election to not measure an ACL for accrued interest receivable. Accrued interest deemed uncollectible will be written off through interest income.

Liability for Credit Losses on Unfunded Loan Commitments

The liability for credit losses inherent in unfunded loan commitments is included in accrued expenses and other liabilities on the Consolidated Balance Sheet. The adequacy of the reserve for unfunded commitments is determined quarterly based on methodology similar to the methodology for determining the ACL. The following table shows the changes in the liability for credit losses on unfunded loan commitments.

(Dollars in thousands)	Three months ended, June 30, 2024	Three months ended, June 30, 2023
Balance, beginning of period	\$ 3,399	\$ 3,108
Adoption of ASC 326	-	-
Provision	515	28
Balance, end of period	\$ 3,914	\$ 3,136

(Dollars in thousands)	Six months ended, June 30, 2024	Six months ended, June 30, 2023
Balance, beginning of period	\$ 3,441	\$ 3,108
Adoption of ASC 326	-	-
Provision	473	28
Balance, end of period	\$ 3,914	\$ 3,136

Note 6 – Intangibles and Acquisition-Related Accounting

<i>(Dollars in thousands)</i>	2024	2023
Goodwill balance January 1,	\$ 22,395	\$ 22,395
Goodwill balance June 30,	\$ 22,395	\$ 22,395

Goodwill is tested annually for impairment. Goodwill arising from business combinations represents the value attributable to unidentifiable intangible assets in the business acquired. The Bancorp's goodwill relates to the value inherent in the banking industry and that value is dependent upon the ability of the Bancorp to provide quality, cost effective banking services in a competitive marketplace. If the implied fair value of goodwill is lower than its carrying amount, goodwill impairment is indicated and goodwill is written down to its implied fair value. There has not been any impairment of goodwill identified or recorded.

In addition to goodwill, a core deposit intangible was established from previous acquisitions. The Bancorp had core deposit intangible balances of \$ 2.6 million and \$3.3 million as of June 30, 2024, and December 31, 2023, respectively. The table below summarizes the intangibles amortization:

The amortization recorded for the quarter ended June 30, is as follows:

<i>(dollars in thousands)</i>	Total
2023	\$ 388
2024	\$ 356

The amortization recorded for the six months ended June 30, is as follows:

<i>(dollars in thousands)</i>	Total
2023	\$ 779
2024	\$ 717

Amortization to be recorded in future periods, is as follows:

<i>(dollars in thousands)</i>	Total
Remainder of 2024	\$ 695
2025	688
2026	360
2027	294
2028	228
Thereafter	290
Total	\$ 2,555

Note 7 – Deposits

The Bancorp's end-of-period deposit portfolio balances were as follows:

<i>(Dollars in thousands)</i>	June 30, 2024	December 31, 2023
Checking	\$ 603,730	\$ 653,529
Savings	288,920	302,782
Money market	322,939	324,993
Certificates of deposit	541,165	532,117
Total deposits	\$ 1,756,754	\$ 1,813,421

The aggregate amount of retail and brokered certificates of deposit with a balance of \$250 thousand or more was approximately \$137.3 million at June 30, 2024 and \$133.6 million at December 31, 2023.

Note 8 - Concentrations of Credit Risk

The primary lending area of the Bancorp encompasses Lake County in northwest Indiana and Cook County in northeast Illinois, where collectively a majority of loan activity is concentrated. The Bancorp is also an active lender in Porter County, and to a lesser extent, LaPorte, Newton and Jasper counties in Indiana; and DuPage, Lake, and Will counties in Illinois. Substantially all loans are secured by specific items of collateral including residences, commercial real estate, land development, business assets and consumer assets.

Note 9 - Earnings per Share

Earnings per common share is computed by dividing net income by the weighted-average number of common shares outstanding. A reconciliation of the numerators and denominators of the basic and diluted earnings per common share computations for the quarter and six months ended 2024 and 2023, are as follows:

<i>(dollars in thousands except per share data)</i>	Quarter ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Basic earnings per common share:				
Net income as reported	\$ 143	\$ 2,438	\$ 9,423	\$ 4,678
Weighted average common shares outstanding	4,259,695	4,250,304	4,258,181	4,248,522
Basic earnings per common share	\$ 0.03	\$ 0.57	\$ 2.21	\$ 1.10
Diluted earnings per common share:				
Net income as reported	\$ 143	\$ 2,438	\$ 9,423	\$ 4,678
Weighted average common shares outstanding	4,259,695	4,250,304	4,258,181	4,248,522
Add: Dilutive effect of unvested restricted stock awards	11,357	8,307	8,234	10,448
Weighted average common and dilutive potential common shares outstanding	4,271,052	4,258,611	4,266,415	4,258,970
Diluted earnings per common share	\$ 0.03	\$ 0.57	\$ 2.21	\$ 1.10

Note 10 - Stock Based Compensation

The Bancorp's 2015 Stock Option and Incentive Plan (the "Plan"), which was adopted by the Bancorp's Board of Directors on February 27, 2015, and approved by the Bancorp's shareholders on April 24, 2015, permits the grant of equity awards for up to 250,000 shares of common stock. The plan was amended and restated effective February 25, 2022. Awards granted under the Plan may be in the form of incentive stock options, non-qualified stock options, restricted stock, unrestricted stock, restricted stock, performance shares, performance units, stock appreciation rights or any combination thereof, as provided in the plan

As required by the Stock Compensation Topic, companies are required to record compensation cost for stock options and awards provided to employees in return for employment service. For the quarter ended June 30, 2024, stock based compensation expense of \$133 thousand was recorded, compared to \$241 thousand for the quarter ended June 30, 2023. For the six months ended June 30, 2024, stock based compensation expense of \$305 thousand was recorded, compared to \$546 thousand for the six months ended June 30, 2023. It is anticipated that current outstanding unvested awards will result in additional compensation expense of approximately \$795 thousand with a weighted average life of 2.0 years.

Restricted stock awards are issued with an award price equal to the market price of the Bancorp's common stock on the award date and vest three years after the grant date. Forfeiture provisions exist for personnel that separate employment before the vesting period expires. A summary of restricted stock activity under the Bancorp's Plan described above for the six months ended June 30, 2024, follows:

<i>Non-vested Shares</i>	<i>Shares</i>	<i>Weighted Average Grant Date Fair Value</i>
Non-vested at January 1, 2024	41,649	\$ 43.87
Granted	18,460	24.31
Vested	(14,974)	39.91
Forfeited	(921)	34.29
Non-vested at June 30, 2024	44,214	\$ 37.24

Note 11 – Derivative Financial Instruments

The Bancorp uses derivative financial instruments to help manage exposure to interest rate risk and the effects that changes in interest rates may have on net income and the fair value of assets and liabilities. The Bancorp has certain interest rate derivative positions that are not designated as hedging instruments. Derivative assets and liabilities are recorded at fair value on the Consolidated Balance Sheet and do not take into account the effects of master netting agreements. Master netting agreements allow the Bancorp to settle all derivative contracts held with a single counterparty on a net basis, and to offset net derivative positions with related collateral, where applicable. These derivative positions relate to transactions in which the Bancorp enters into an interest rate swap with a client while at the same time entering into an offsetting interest rate swap with another financial institution. In connection with each transaction, the Bancorp agrees to pay interest to the client on a notional amount at a variable interest rate and receive interest from the client on the same notional amount at a fixed interest rate. At the same time, the Bancorp agrees to pay another financial institution the same fixed interest rate on the same notional amount and receive the same variable interest rate on the same notional amount. The transaction allows the client to effectively convert a variable rate loan to a fixed rate. Because the terms of the swaps with the customers and the other financial institutions offset each other, with the only difference being counterparty credit risk, changes in the fair value of the underlying derivative contracts are not materially different and do not significantly impact the Bancorp's results of operations.

The Bancorp enters into commitments to originate loans whereby the interest rate on the loan is determined prior to funding (i.e., interest rate lock commitment). The interest rate lock commitments are considered derivatives and are recorded on the accompanying consolidated balance sheets at fair value in accordance with FASB ASC 815, Derivatives and Hedging.

The following table shows the amounts of non-hedging derivative financial instruments:

		June 30, 2024			
		Asset derivatives		Liability derivatives	
(Dollars in thousands)	Statement of Financial Condition classification	Fair value		Statement of Financial Condition classification	Fair value
Interest rate swap contracts	Other assets	\$ 5,696		Other liabilities	\$ 5,696
Interest rate lock commitments	Other assets	37		N/A	-
Total		\$ 5,733			\$ 5,696

		December 31, 2023			
		Asset derivatives		Liability derivatives	
(Dollars in thousands)	Statement of Financial Condition classification	Fair value		Statement of Financial Condition classification	Fair value
Interest rate swap contracts	Other assets	\$ 5,591		Other liabilities	\$ 5,591
Interest rate lock commitments	Other assets	35		N/A	-
Total		\$ 5,626			\$ 5,591

The following table shows the amounts included in the Statements of Income for non-hedging derivative financial instruments:

Note 12 - Fair Value

The Fair Value Measurements Topic establishes a hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Topic describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of securities available-for-sale are determined on a recurring basis by obtaining quoted prices on nationally recognized securities exchanges or pricing models utilizing significant observable inputs such as matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities. Different judgments and assumptions used in pricing could result in different estimates of value. In certain cases where market data is not readily available because of a lack of market activity or little public disclosure, values may be based on unobservable inputs and classified in Level 3 of the fair value hierarchy.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

There were no transfers to or from Levels 1 and 2 during the six months ended June 30, 2024. Assets measured at fair value on a recurring basis are summarized below:

(Dollars in thousands)	(Dollars in thousands)			
	Estimated Fair Value	Fair Value Measurements at June 30, 2024 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest rate swap contracts	\$ 5,696	\$ -	\$ 5,696	\$ -
Interest rate lock commitments	37	-	37	-
Available-for-sale debt securities:				
U.S. government sponsored entities	7,888	-	7,888	-
Collateralized mortgage obligations and residential mortgage-backed securities	114,781	-	114,781	-
Municipal securities	215,545	-	215,545	-
Collateralized debt obligations	1,371	-	-	1,371
Total securities available-for-sale	\$ 339,585	\$ -	\$ 338,214	\$ 1,371
Liabilities:				
Interest rate swap contracts	\$ 5,696	\$ -	\$ 5,696	\$ -

(Dollars in thousands)	(Dollars in thousands)			
	Estimated Fair Value	Fair Value Measurements at December 31, 2023 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest rate swap contracts	\$ 5,591	\$ -	\$ 5,591	\$ -
Interest rate lock commitments	35	-	35	-
Available-for-sale debt securities:				
U.S. government sponsored entities	7,883	-	7,883	-
Collateralized mortgage obligations and residential mortgage-backed securities	123,464	-	123,464	-
Municipal securities	238,670	-	238,670	-
Collateralized debt obligations	1,357	-	-	1,357
Total securities available-for-sale	\$ 371,374	\$ -	\$ 370,017	\$ 1,357
Liabilities:				
Interest rate swap contracts	\$ 5,591	\$ -	\$ 5,591	\$ -

A roll forward of available-for-sale securities, which require significant adjustment based on unobservable data, are presented in the following table:

	<i>(Dollars in thousands)</i> <i>Estimated Fair Value</i> <i>Measurements Using</i> <i>Significant</i> <i>Unobservable</i> <i>Inputs</i> <i>(Level 3)</i>
	<u>Available-for-sale securities</u>
Beginning balance, January 1, 2023	\$ 1,048
Principal payments	-
Total unrealized gains, included in other comprehensive income	27
Ending balance, June 30, 2023	<u>\$ 1,075</u>
Beginning balance, January 1, 2024	\$ 1,357
Principal payments	(7)
Total unrealized gains, included in other comprehensive loss	21
Ending balance, June 30, 2024	<u>\$ 1,371</u>

Assets measured at fair value on a non-recurring basis are summarized below:

	<i>(Dollars in thousands)</i> <u>Fair Value Measurements at June 30, 2024 Using</u>			
<i>(Dollars in thousands)</i>	Estimated Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Collateral dependent loans	\$ 872	\$ -	\$ -	\$ 872

	<i>(Dollars in thousands)</i> <u>Fair Value Measurements at December 31, 2023 Using</u>			
<i>(Dollars in thousands)</i>	Estimated Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Collateral dependent loans	\$ 8,673	\$ -	\$ -	\$ 8,673

Fair value is determined, where possible, using market prices derived from an appraisal or evaluation, which are considered to be Level 2 inputs. However, certain assumptions and unobservable inputs are often used by the appraiser, therefore, qualifying the assets as Level 3 in the fair value hierarchy. The fair value of foreclosed real estate is similarly determined by using the results of recent real estate appraisals. The numerical range of unobservable inputs for these valuation assumptions is not meaningful to this presentation.

The following table shows carrying values and related estimated fair values of financial instruments as of the dates indicated. Estimated fair values are further categorized by the inputs used to measure fair value. Items that are not financial instruments are not included.

	June 30, 2024		Estimated Fair Value Measurements at June 30, 2024 Using		
	Carrying Value	Estimated Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(Dollars in thousands)					
Financial assets:					
Cash and cash equivalents	\$ 83,207	\$ 83,207	\$ 83,207	\$ -	\$ -

Interest bearing deposits	1,517,827	1,513,640	985,710	527,930	-
Repurchase agreements	38,124	37,938	31,033	6,905	-
Borrowed funds	80,000	79,791	-	79,791	-
Accrued interest payable	3,065	3,065	-	3,065	-

The following methods were used to estimate the fair value of financial instruments presented in the preceding table for the periods ended June 30, 2024 and December 31, 2023:

Cash and cash equivalent carrying amounts approximate fair value. Certificates of deposits in other financial institutions carrying amounts approximate fair value (Level 2). The fair values of securities available-for-sale are obtained from broker pricing (Level 2), with the exception of collateralized debt obligations, which are valued by a third-party specialist (Level 3). Loans held-for-sale comprise residential mortgages and are priced based on values established by the secondary mortgage markets (Level 1). The estimated fair value for net loans receivable is based on the exit price notion which is the exchange price that would be received to transfer the loans at the most advantageous market price in an orderly transaction between market participants on the measurement date (Level 3). Federal Home Loan Bank stock is estimated at book value due to restrictions that limit the sale or transfer of the security. Interest rate swap agreements, both assets and liabilities, are valued by a third-party pricing agent using an income approach (Level 2). Fair values of accrued interest receivable and payable approximate book value, as the carrying values are determined using the observable interest rate, balance, and last payment date.

Non-interest and interest bearing deposits, which include checking, savings, and money market deposits, are estimated to have fair values based on the amount payable as of the reporting date (Level 1). The fair value of fixed-maturity certificates of deposit (included in interest bearing deposits) are based on estimates of the rate the Bancorp would pay on similar deposits, applied for the time period until maturity (Level 2). Estimated fair values for short-term repurchase agreements, which represent sweeps from demand deposits to accounts secured by pledged securities, are estimated based on the amount payable as of the reporting date (Level 1). Longer-term repurchase agreements, with contractual maturity dates of quarter or more, are based on estimates of the rate the Bancorp would pay on similar deposits, applied for the time period until maturity (Level 2). Short-term borrowings are generally only held overnight, therefore, their carrying amount is a reasonable estimate of fair value (Level 1). The fair value of FHLB Advances are estimated by discounting the future cash flows using quoted rates from the FHLB for similar advances with similar maturities (Level 2). The estimated fair value of other financial instruments, and off-balance sheet loan commitments, approximate cost and are not considered significant to this presentation.

Note 13 - Borrowings

At June 30, 2024, and December 31, 2023, borrowed funds are summarized below:

	<i>(Dollars in thousands)</i>	
	<i>June 30, 2024</i>	<i>December 31, 2023</i>
Fixed rate advances from the Federal Reserve with outstanding rates of 5.40% as of June 30, 2024	\$ 60,000	\$ 80,000
Fixed rate advances from the FHLB with outstanding rates of 3.84% as of June 30, 2024	\$ 15,000	\$ -
Fixed rate advances from the FHLB with outstanding rates of 3.74% as of June 30, 2024	\$ 10,000	\$ -
Total	<u>\$ 85,000</u>	<u>\$ 80,000</u>

At June 30, 2024, scheduled maturities of borrowed funds were as follows:

	<i>(Dollars in thousands)</i>
2025	\$ 60,000
2026	-
2027	-
2028	-
2029	25,000
Total	<u>\$ 85,000</u>

As of June 30, 2024, the Bancorp had an outstanding balance under the Federal Reserve's Bank Term Funding Program ("BTFP") of \$ 60 million, and is pledging as collateral, securities with a par value of \$218.2 million. The Bancorp's liquidity position remains strong with solid core deposit customer relationships, excess cash, debt securities, and access to diversified borrowing sources. The Bancorp has available liquidity of \$574.3 million including borrowing capacity from the FHLB and Federal Reserve facilities and other sources. In addition to the BTFP, the Bancorp maintains a \$25.0 million line of credit with the Federal Home Loan Bank of Indianapolis. The Bancorp did not have a balance on the line of credit at June 30, 2024 or December 31, 2023. The Bancorp did not have other borrowings at June 30, 2024, or as of December 31, 2023.

Note 14 - Leases

Under ASC 842, operating lease expense is generally recognized on a straight-line basis over the term of the lease. On February 22, 2024, the Bank closed its previously announced sale-leaseback transaction with MountainSeed Real Estate Services, LLC (the "Buyer"), pursuant to which the Bank sold to the Buyer five properties owned and operated as branch locations (the "Properties") for an aggregate purchase price of \$ 17.2 million, including customary closing adjustments. Under the Sale Agreement, the Bank also entered into triple net lease agreements (the "Lease Agreements") with the Buyer under which the Bank leases each of the Properties, and pursuant to which the Bank is responsible for the insurance, real estate taxes, and maintenance and repairs for each of the properties. Each of the Lease Agreements became effective upon the closing of the sale-leaseback transaction and have an initial term of 15 years. The Bank's obligations under the Lease Agreements are guaranteed by the Bancorp.

As the rate implicit in the leases generally is not readily determinable for our operating leases, the discount rates used to determine the present value of our lease liability are based on our incremental borrowing rate at the lease commencement date and commensurate with the remaining lease term. Our incremental borrowing rate for a lease is the rate of interest we would have to pay to borrow on a collateralized basis over a similar term an amount equal to the lease payments in a similar economic environment. Leases with an initial term of 12 months or less are not recorded on the balance sheet and are excluded from our weighted-average remaining lease term.

The following table summarizes supplemental cash flow and other information related to our operating leases:

(Dollars in thousands)	Six Months Ended June 30,	
	2024	2023
(Gain) losses on sale-leaseback transaction, net	\$ (11,772)	\$ -
Operating cash flows		
Cash paid for amounts included in the measurement of lease liabilities for leases	570	35
ROU assets obtained in the exchange for lease liabilities - Operating leases	16,140	-
Weighted-average remaining lease terms (in years) - Operating leases	14.66	4.57
Weighted-average discount rate - Operating leases	7.68%	3.00%
Variable lease Payments	\$ 140	\$ -
Total lease Costs (1)	807	51

(1) Included in Occupancy and equipment costs on the consolidated statements of operations

The following table represents the maturity of the Company's operating lease liabilities as of June 30, 2024:

(Dollars in thousands)	
Maturity Analysis	
Remainder 2024	\$ 753
2025	1,530
2026	1,560
2027	1,591
2028	1,623
2029	1,655
Thereafter	16,798
Total	25,510
Less: Present value discount	(10,294)
Lease liability	<u>\$ 15,217</u>

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Summary

Finward Bancorp (the "Bancorp") is a financial holding company registered with the Board of Governors of the Federal Reserve System. Peoples Bank ("the Bank"), an Indiana commercial bank, is a wholly-owned subsidiary of the Bancorp. The Bancorp has no other business activity other than being a holding company for the Bank. The following management's discussion and analysis presents information concerning our financial condition as of June 30, 2024 and December 31, 2023, and the results of operations for the three and six months ending June 30, 2024, and June 30, 2023. This discussion should be read in conjunction with the consolidated financial statements and other financial data presented elsewhere herein and with the financial statements and other financial data, as well as the Management's Discussion and Analysis of Financial Condition and Results of Operations, included in the Bancorp's Annual Report on Form 10-K for the year ended December 31, 2023.

At June 30, 2024, the Bancorp had total assets of \$2.1 billion, loans receivable, net of deferred fees and costs, of \$1.5 billion and total deposits of \$1.8 billion. Stockholders' equity totaled \$148.6 million or 7.2% of total assets, with a book value per share of \$34.45. Net income for the quarter ended June 30, 2024, was \$143 thousand, or \$0.03 earnings per common diluted share. For the quarter ended June 30, 2024, the return on average assets (ROA) was 0.03%, while the return on average stockholders' equity (ROE) was 0.39%. Net income for the six months ended June 30, 2024, was \$9.4 million, or \$2.21 earnings per diluted common share. For the six months ended June 30, 2024, the ROA was 0.91%, while the ROE was 12.81%.

Regulatory Developments Regarding the Bancorp and the Bank

Consent Order

On November 7, 2023, the Bank entered into a Stipulation and Consent to the Issuance of a Consent Order (the "Stipulation") with the FDIC and the Indiana Department of Financial Institutions ("DFI"), consenting to the issuance of a consent order (the "Order") relating to the Bank's compliance with the Bank Secrecy Act and its implementing regulations (collectively, the "BSA"). In consenting to the issuance of the Order, the Bank did not admit or deny any charges of unsafe or unsound banking practices or violations of law or regulation relating to its BSA compliance. The Order is based on findings of the FDIC and DFI during their joint examination commencing in February 2023 (the "Examination"). Since the completion of the Examination, the board of directors and management of the Bancorp and the Bank have aggressively taken an active role in working to address the findings contained in the Examination and have proactively taken steps to comply with the requirements of the Order prior to its effectiveness, as further discussed below.

Under the terms of the Order, the Bank or its board of directors is required to take certain affirmative actions to comply with the Bank's obligations under the BSA. These affirmative actions include, but are not limited to, the following: strengthening the board of directors' oversight of the Bank's BSA activities; developing, adopting, and implementing a revised BSA compliance program; developing a revised system of internal controls designed to ensure full compliance with the BSA; retaining management qualified to oversee the Bank's BSA compliance program, including retaining a qualified BSA officer; assessing BSA staffing needs and identifying staff positions and personnel for BSA compliance; developing, adopting, and implementing a revised BSA training program; developing, adopting, and implementing a revised suspicious activity reporting program; implementing a board-approved customer due diligence program, and reviewing and enforcing enhanced customer due diligence and risk assessment procedures; eliminating or correcting certain violations of BSA law and regulations, and correcting BSA program weaknesses; ensuring that all reports required by the BSA are accurately and properly filed; and developing and implementing a written plan to review past account and transaction activity to determine whether suspicious activity was properly identified and reported.

Prior to implementation, certain of the actions required by the Order are subject to review by, and approval or non-objection from, the FDIC and the DFI. The Order will remain in effect and enforceable until it is modified, terminated, suspended, or set aside by the FDIC and DFI.

Numerous actions have been taken to date or commenced by the Bank to strengthen its BSA and anti-money laundering compliance practices, policies, procedures, and controls. In this regard, the Bank began developing corrective actions prior to the entry of the Order and expects that it will be able to undertake and implement all required actions within the time periods specified in the Order. These actions include, without limitation, the formation of a Risk Management and Compliance Committee of the board of directors, consisting solely of independent directors, to assist the board in overseeing compliance efforts; enhancing the Bank's risk management and compliance programs through restructuring reporting lines; improving technology and increasing BSA compliance staff, including hiring senior personnel; making additional investments into processes and system upgrades to strengthen anti-money laundering controls; enhancing education and training of the Bank's employees responsible for BSA and anti-money laundering compliance; and conducting a look-back review of accounts and transaction activity covering the time periods from February 1, 2022 to March 31, 2023 to identify and properly report suspicious activity and appointing a new Senior Vice President, General Counsel, Corporate Secretary, and Chief Risk Officer of the Bancorp and the Bank with oversight responsibility over the Bank's enhanced risk management infrastructure, including BSA compliance.

The Order is expected to result in additional non-interest BSA compliance expenses for the Bank and the Bancorp. It also may have the effect of limiting or delaying the Bank's and the Bancorp's ability to obtain regulatory approval for certain expansionary activities, to the extent desired by the Bancorp. Our failure to comply with the Order or MOU may result in additional regulatory action, including civil money penalties against the Bank and its officers and directors or enforcement through court proceedings, which could have a material and adverse effect on our business, results of operations, financial condition, cash flows, and stock price.

Memorandum of Understanding

On August 9, 2024, the Bank entered into a memorandum of understanding ("MOU") with the FDIC and DFI, which supersedes and replaces the MOU the Bank previously entered into with the FDIC and DFI on November 7, 2023. The MOU is an informal administrative agreement pursuant to which the Bank has agreed to take various actions and comply with certain requirements to enhance certain areas of the Bank's operations. The MOU documents an understanding among the Bank, the FDIC, and DFI that, among other things, the Bank will: refrain from paying cash dividends without prior regulatory approval and develop and implement certain plans regarding the Bank's operations, capital, and strategy. The Bank will submit written quarterly progress reports to the FDIC and DFI detailing compliance with the MOU. The MOU will remain in effect until modified or terminated by the FDIC and DFI.

Management does not expect the actions called for by these regulatory actions to have a substantial impact on the Bancorp's or the Bank's ongoing day-to-day operations, although they may have the effect of limiting or delaying the Bancorp's or the Bank's ability or plans to expand and engage in business combinations.

Financial Condition

General

During the six months ended June 30, 2024, total assets decreased by \$31.2 million (1.5%), with interest-earning assets decreasing by \$41.9 million (2.1%). At June 30, 2024, interest-earning assets totaled \$1.92 billion compared to \$1.96 billion at December 31, 2023. Earning assets represented 92.3% of total assets at June 30, 2024 and 92.9% of total assets at December 31, 2023.

Loan Portfolio

Net loans receivable totaled \$1.51 billion at both June 30, 2024 and December 31, 2023. The loan portfolio, which is the Bancorp's largest asset, is the primary source of both interest and fee income. The Bancorp's lending strategy emphasizes quality loan growth, product diversification, and competitive and profitable pricing.

The Bancorp's end-of-period loan balances were as follows:

(Dollars in thousands)	June 30, 2024		December 31, 2023	
	Balance	% Loans	Balance	% Loans
Residential real estate	\$ 475,371	31.6%	\$ 484,948	32.1%
Home equity	48,435	3.2%	46,599	3.1%
Commercial real estate	529,421	35.2%	503,202	33.4%
Construction and land development	88,699	5.9%	115,227	7.6%
Multifamily	219,841	14.6%	219,917	14.6%

Loans receivable to total deposits		85.7%		83.4%

Our total commercial real estate portfolio (which is comprised of loans secured by office space, medical office space, and mixed-use retail/office space) totaled \$529.4 million as of June 30, 2024, compared to \$503.2 million as of December 31, 2023. Given prevailing market conditions such as higher interest rates, reduced occupancy as a result of the increase in hybrid work arrangements, and lower commercial real estate valuations, we are carefully monitoring these loans for signs of deterioration in credit quality.

Commercial real estate loans remained our largest loan segment and accounted for 35.2% of the total loan portfolio at June 30, 2024 and 33.4% at December 31, 2023. A further breakdown of the composition of the commercial real estate loan portfolio as of June 30, 2024 and December 31, 2023 is shown in the table below:

Commercial Real Estate (CRE)*
(Dollars in millions)

* North American Industry Classification System (NAICS) classification coding for CRE loans began in 2023.

The Bank's Appraisal Policy and Procedures is Board approved annually and reflects current regulatory guidelines and recommendations. As one of the primary factors in commercial loan underwriting is the quality of the asset being pledged as collateral, it is imperative that the appraisal process receive appropriate attention. Appraisals must be prepared in accordance with high professional standards, by appraisers who have the necessary training, experience and knowledge for them to provide an accurate estimate of value. With few exceptions, appraisals are assigned to fee appraisers named in the Board approved appraiser list, which includes the tracking of all required certifications, licenses and insurance. The Bank has engaged with one of the nation's longest-standing third-party appraisal management companies for ordering, management, fulfillment and review of real estate appraisals and other valuation-related services for the properties securing the Bank's commercial real estate loans.

Criteria that may require the Bank to obtain a new appraisal or update the existing value for an existing credit include but are not limited to a change in the discount or capitalization rates for a particular location or property type; occupancy or absorption levels; market trends; and/or expense structure. Regarding the necessity of updated valuations for construction financing, factors considered are material changes in construction delays; cost overruns; or reductions in sales prices / rents. This may be done as a part of a renewal, loan workout or as a part of the usual and customary real estate review process that monitors the risks associated with the Bank's loan portfolios.

The following table sets forth certain information at June 30, 2024, regarding the dollar amount of loans in the Bancorp's portfolio based on their contractual terms to maturity. Demand loans, loans having no schedule of repayment and no stated maturity, and overdrafts are reported as due in one year or less. Contractual principal repayments of loans do not necessarily reflect the actual term of the loan portfolio. The average life of mortgage loans is substantially less than their contractual terms because of loan prepayments and because of enforcement of due-on-sale clauses, which give the Bancorp the right to declare a loan immediately due and payable in the event, among other things, that the borrower sells the property subject to the mortgage. The amounts are stated in thousands ('000's).

	Maturing within one year	After one but within five years	After five but within fifteen years	After fifteen years	Total
Residential real estate	\$ 4,398	\$ 25,825	\$ 90,780	\$ 354,368	\$ 475,371
Home equity	11,323	204	4,508	32,400	48,435
Commercial real estate	22,325	140,264	366,183	649	529,421

Consumer	52	540	19	-	611
Manufactured Homes	-	105	8,683	19,933	28,721
Commercial business	33,281	46,987	17,659	475	98,402
Government	1,945	10,725	1,344	-	14,014
Total loans receivable	<u>\$ 122,808</u>	<u>\$ 338,426</u>	<u>\$ 625,883</u>	<u>\$ 416,398</u>	<u>\$ 1,503,515</u>

The Bancorp is primarily a portfolio lender. Mortgage banking activities historically have been limited to the sale of fixed rate mortgage loans with contractual maturities of 15 years. These loans are identified as held for sale when originated and sold, on a loan-by-loan basis, in the secondary market. The Bancorp will also retain mortgage loans with a fixed rate. During the six months ended June 30, 2024, the Bancorp originated \$10.6 million in new fixed rate mortgage loans for sale, compared to \$19.3 million during the six months ended June 30, 2023. Net gains realized from the mortgage loan sales totaled \$472 thousand for the six months ended June 30, 2024, compared to \$537 thousand for the six months ended June 30, 2023. The decrease in originations and net gains realized from mortgage loan sales for the six months ended June 30, 2024, compared to the prior year period is primarily due to lower demand for fixed rate mortgage loans as a result of increases in mortgage rates and continued low levels of housing inventory, which also slowed mortgage applications. At June 30, 2024, the Bancorp had \$1.2 million in loans that were classified as held for sale, compared to \$340 thousand at December 31, 2023.

Asset Quality

Non-performing loans include those loans that are 90 days or more past due and those loans that have been placed on non-accrual status. At June 30, 2024, non-performing loans that remained accruing and more than 90 days past due include one multifamily loan totaling \$294 thousand. The Bancorp will at times maintain certain loans on accrual status, despite being over 90 days past due, for short periods of time when management has reason to believe payments are in the process of being received.

(Dollars in thousands)

Loan Segment	June 30, 2024	December 31, 2023

Total	\$ 11,373	\$ 11,451
Nonperforming loans to total loans	0.75%	0.76%
Nonperforming loans to total assets	0.54%	0.54%

Substandard loans include potential problem loans, where information about possible credit issues or other conditions causes management to question the ability of such borrowers to comply with loan covenants or repayment terms. No loans were internally classified as doubtful or loss at June 30, 2024 or December 31, 2023.

The Bancorp's substandard loans are summarized below:

(Dollars in thousands)

Loan Segment	June 30, 2024	December 31, 2023
Residential real estate	\$ 2,984	\$ 2,098
Home equity	460	479
Commercial real estate	2,511	2,544

Commercial business	2,545	2,896
Consumer	-	2
Manufactured homes	-	-
Government	-	-
Total	\$ 14,266	\$ 12,264

In addition to identifying and monitoring non-performing and other classified loans, management maintains a list of special mention loans. Special mention loans represent loans management is closely monitoring due to one or more factors that may cause the loan to become classified as substandard.

The Bancorp's special mention loans are summarized below:

(Dollars in thousands)

Loan Segment	June 30, 2024	December 31, 2023
Residential real estate	\$ 3,387	\$ 3,084
Home equity	559	168
Commercial real estate	6,014	7,434
Construction and land development	4,222	6,902
Multifamily	4,392	-
Commercial business	2,408	1,610
Consumer	-	-
Manufactured homes	-	-
Government	-	-
Total	<u>\$ 20,982</u>	<u>\$ 19,198</u>

At June 30, 2024, management is of the opinion that there are no loans where known information about possible credit problems of borrowers causes management to have serious doubts as to the ability of such borrowers to comply with the present loan repayment terms and which will imminently result in such loans being classified as past due or non-accrual. Management does not presently anticipate that any of the non-performing loans or classified loans would materially affect future operations, liquidity or capital resources.

The allowance for credit losses (ACL) is a valuation allowance for probable incurred credit losses, increased by the provision for credit losses, and decreased by charge-offs net of recoveries. A loan is charged off against the allowance by management as a loss when deemed uncollectible, although collection efforts continue and future recoveries may occur. The determination of the amounts of the ACL and provisions for credit losses is based on management's current judgments about the credit quality of the loan portfolio with consideration given to all known relevant internal and external factors that affect loan collectability and reasonable and supportable forecasts as of the reporting date. The appropriateness of the current period provision and the overall adequacy of the ACL are determined through a disciplined and consistently applied quarterly process that reviews the Bancorp's current credit risk within the loan portfolio and identifies the required allowance for credit losses given the current risk estimates.

The Bancorp's (release of) provision for credit losses for the period ended are summarized below:

(Dollars in thousands)

Loan Segment	Three months ended, June 30, 2024	Six months ended June 30, 2024

The ACL provisions take into consideration management's current judgments about the credit quality of the loan portfolio, loan portfolio balances, changes in the portfolio mix, and local economic conditions. In determining the provision for credit losses for the current period, management has considered risks associated with the local economy, changes in loan balances and mix, and asset quality.

The Bancorp's allowance to total loans and non-performing loans are summarized below:
(Dollars in thousands)

	6/30/2024	12/31/2023
Allowance for credit losses	\$ 18,330	\$ 18,768
Total loans	\$ 1,506,398	\$ 1,512,595
Non-performing loans	\$ 11,373	\$ 11,451
ACL-to-total loans	1.22%	1.24%
ACL-to-non-performing loans (coverage ratio)	161.2%	163.9%

Investment Portfolio

The primary objective of the Bancorp's investment portfolio is to provide for the liquidity needs of the Bancorp and to contribute to profitability by providing a stable flow of dependable earnings. Funds are generally invested in federal funds, interest bearing balances in other financial institutions, U.S. government securities, federal agency obligations, obligations of state and local municipalities, and corporate securities. The securities portfolio, all of which is designated as available-for-sale, totaled \$339.6 million at June 30, 2024, compared to \$371.4 million at December 31, 2023, a decrease of \$31.8 million (8.6%). The decrease in securities available for sale on a year to date basis was due to a combination of a sale of \$15.1 million in securities, portfolio runoff and an increase in gross unrealized losses. Unrealized losses were \$77.4 million as of June 30, 2024, compared to \$68.0 million on December 31, 2023, an increase of \$9.5 million or 13.9%. The yield on the securities portfolio increased to 2.43% for the three months ended June 30, 2024, up from 2.36% for the three months ended June 30, 2023. Management did not execute any securities sale transactions during the quarter but will continue to monitor the securities portfolio for additional restructuring opportunities. At June 30, 2024, the securities portfolio represented 17.7% of interest-earning assets and 16.3% of total assets compared to 19.0% of interest-earning assets and 17.6% of total assets at December 31, 2023.

The Bancorp's end-of-period investment portfolio and other short-term investments and stock balances were as follows:

(Dollars in thousands)	June 30, 2024		December 31, 2023	
	Balance	% Securities	Balance	% Securities
U.S. government sponsored entities	\$ 7,888	2.3%	\$ 7,883	2.1%
Collateralized mortgage obligations and residential mortgage-backed securities	114,781	33.8%	123,464	33.2%
Municipal securities	215,545	63.5%	238,670	64.3%
Collateralized debt obligations	1,371	0.4%	1,357	0.4%
Total securities available-for-sale	\$ 339,585	100.0%	\$ 371,374	100.0%

(Dollars in thousands)	June 30, 2024	December 31, 2023	YTD Change	%
	Balance	Balance	\$	
Interest bearing deposits in other financial institutions	\$ 63,439	\$ 67,647	\$ (4,208)	-6.2%
Fed funds sold	707	419	288	68.7%
Federal Home Loan Bank stock	6,547	6,547	-	-

The decrease in interest bearing deposits in other financial institutions is the result of the timing of cash flows.

The contractual maturities and weighted average yields for the U.S. government agency securities, municipal securities, and collateralized debt obligations at June 30, 2024, are summarized in the table below. Securities not due at a single maturity date, such as mortgage-backed securities and collateralized mortgage obligations, are shown separately. The carrying values are stated in thousands (000's).

The weighted average yields were calculated by multiplying each carrying value by its yield and dividing the sum of these results by the total carrying values. Yields presented are not on a tax-equivalent basis.

	Within 1 Year		1 - 5 Years		5 - 10 Years		After 10 Years		Total Amount

Deposits

Deposits are a fundamental and cost-effective source of funds for lending and other investment purposes. The Bancorp offers a variety of products designed to attract and retain customers, with the primary focus on building and expanding relationships.

The Bancorp's end-of-period deposit portfolio balances were as follows:

(Dollars in thousands)	June 30,	December 31,	YTD Change	
	2024	2023	\$	%
Checking	\$ 603,730	\$ 653,529	\$ (49,799)	-7.6%
Savings	288,920	302,782	(13,862)	-4.6%
Money market	322,939	324,993	(2,054)	-0.6%
Certificates of deposit	541,165	532,117	9,048	1.7%
Total deposits	\$ 1,756,754	\$ 1,813,421	\$ (56,667)	-3.1%

As of June 30, 2024, deposits totaled \$1.8 billion, compared to \$1.8 billion on December 31, 2023 a decrease of \$56.7 million or 3.1%. Core deposits totaled \$1.2 billion at June 30, 2024 compared to \$1.3 billion on December 31, 2023, a decrease of \$65.7 million or 5.1%. Core deposits include checking, savings, and money market accounts and represented 69.2% of the Bancorp's total deposits at June 30, 2024. On June 30, 2024, balances for certificates of deposit totaled \$541.2 million, compared to \$532.1 million on December 31, 2023, an increase of \$9.0 million or 1.7%. The overall deposit balance decrease is primarily related to cyclical inflows and outflows related to a number of municipality depositors and planned adjustments to deposit pricing.

Non-interest checking account balances decreased \$49.8 million and interest bearing savings account balances decreased \$13.9 million in the first six months of 2024 as municipal and business customers deployed their excess cash balances. Money market account balances decreased by \$2.1 million during the first six months of 2024 due to consumer preferences. Certificates of deposits increased by \$9.0 million in the first six months of 2024 reflecting our increases in offered interest rates. We strive to maintain balances of personal and business checking and savings accounts through our focus on quality customer service, the desire of customers to deal with a local bank, the convenience of our branch network and the breadth and depth of our product line.

Noninterest bearing demand accounts comprised 17.8% of total deposits at June 30, 2024 and 16.8% of total deposits at December 31, 2023. Interest bearing demand accounts, including money market and savings accounts, comprised 51.4% of total deposits at June 30, 2024 and 53.8% at December 31, 2023. Time accounts as a percentage of total deposits were 30.8% at June 30, 2024 and 29.3% at December 31, 2023.

The following table presents the average daily amount of deposits and average rates paid on such deposits for the periods indicated. The amounts are stated in thousands (000's).

	June 30, 2024		December 31, 2023	
	Amount	Rate %	Amount	Rate %
Noninterest bearing demand deposits	\$ 293,008	-	\$ 323,694	-
Interest bearing demand deposits	322,706	0.96	344,449	0.96
MMDA accounts	317,848	3.36	284,910	2.73
Savings accounts	297,389	0.05	343,008	0.05
Certificates of deposit	533,446	3.92	488,025	2.91
Total deposits	\$ 1,764,397	2.37	\$ 1,784,086	1.43

The increase in deposit rates in the six months ended June 30, 2024 as compared to full year ending December 31, 2023 is primarily the result of the increase in short-term market interest rates and deposit product migration experienced throughout 2023 and continuing in the first six months of 2024.

Borrowed Funds

The Bancorp's borrowed funds are primarily used to fund asset growth not supported by deposit generation. The Bancorp's end-of-period borrowing balances were as follows:

(Dollars in thousands)	June 30, 2024	December 31, 2023	YTD Change	
	Balance	Balance	\$	%
Repurchase agreements	\$ 42,973	\$ 38,124	\$ 4,849	12.7%
Borrowed funds	85,000	80,000	5,000	6.3%
Total borrowed funds	<u>\$ 127,973</u>	<u>\$ 118,124</u>	<u>\$ 9,849</u>	<u>8.3%</u>

Borrowings and repurchase agreements totaled \$128.0 million compared to \$118.1 million at December 31, 2023, an increase of \$9.8 million or 8.3%. The change in short-term borrowings from December 31, 2023 was the result of cyclical inflows and outflows of interest-earning assets and interest-bearing liabilities. Furthermore, during the current quarter, the Bancorp repaid an additional \$5 million of its outstanding BTFP balance, resulting in a \$60 million balance as of June 30, 2024. As of June 30, 2024, 71% of our deposits are fully FDIC insured, and another 8% are further backed by the Indiana Public Deposit Insurance Fund. The Bancorp's liquidity position remains strong with solid core deposit customer relationships, excess cash, debt securities, and access to diversified borrowing sources. As of June 30, 2024, the Bancorp had available liquidity of \$574.3 million including borrowing capacity from the FHLB and Federal Reserve facilities

Other assets totaled \$44.0 million at June 30, 2024, compared to \$45.3 million at December 31, 2023. The decrease in other assets is primarily related to decreased fair value of the Bancorp's interest rate swap contract derivative. Other liabilities totaled \$43.7 million at June 30, 2024, compared to \$29.4 million at December 31, 2023. The increase in other liabilities is primarily related to the sale-leaseback transaction executed on February 22, 2024 with MountainSeed Real Estate Services, LLC (the "Buyer"). Under the Sale Agreement, the Bank also entered into lease agreements (the "Lease Agreements") with the Buyer under which the Bank leases each of the Properties. Each of the Lease Agreements became effective upon the closing of the sale-leaseback transaction and have an initial term of 15 years.

Market Risk and Interest Rate Sensitivity

General

Market risk represents the risk of loss due to changes in market values of assets and liabilities. The Bancorp incurs market risk in the normal course of business through exposures to market interest rates, equity prices, and credit spreads. As of June 30, 2024, the Bancorp has identified interest rate risk as our primary source of market risk.

Interest Rate Risk

Interest rate risk is the risk to earnings and value arising from changes in market interest rates. Interest rate risk arises from timing differences in the repricings and maturities of interest-earning assets and interest-bearing liabilities (repricing risk), changes in the expected maturities of assets and liabilities arising from embedded options, such as borrowers' ability to prepay home mortgage loans at any time and depositors' ability to redeem certificates of deposit before maturity (option risk), changes in the shape of the yield curve where interest rates increase or decrease in a nonparallel fashion (yield curve risk), and changes in spread relationships between different yield curves, such as U.S. Treasuries and SOFR (basis risk).

The Bancorp's board of directors establishes broad policy limits with respect to interest rate risk. As part of this policy, the asset liability committee, or ALCO, establishes specific operating guidelines within the parameters of the board of director's policies. In general, the ALCO focuses on ensuring a stable and steadily increasing flow of net interest income through managing the size and mix of the balance sheet. The management of interest rate risk is an active process which encompasses monitoring loan and deposit flows complemented by investment and funding activities. Effective management of interest rate risk begins with understanding the dynamic characteristics of assets and liabilities and determining the appropriate interest rate risk posture given business forecasts, management objectives, market expectations, and policy constraints.

An asset sensitive position refers to a balance sheet position in which an increase in short-term interest rates is expected to generate higher net interest income, as rates earned on our interest-earning assets would reprice upward more quickly than rates paid on our interest-bearing liabilities, thus expanding our net interest margin. Conversely, a liability sensitive position refers to a balance sheet position in which an increase in short-term interest rates is expected to generate lower net interest income, as rates paid on our interest-bearing liabilities would reprice upward more quickly than rates earned on our interest-earning assets, thus compressing our net interest margin.

Interest rate risk measurement is calculated and reported to the ALCO at least quarterly. The information reported includes period-end results and identifies any policy limits exceeded, along with an assessment of the policy limit breach and the action plan and timeline for resolution, mitigation, or assumption of the risk.

Evaluation of Interest Rate Risk

We use income simulations, an analysis of core funding utilization, and economic value of equity (EVE) simulations as our primary tools in measuring and managing interest rate risk. These tools are utilized to quantify the potential earnings impact of changing interest rates over a 12-month simulation horizon (income simulations) as well as identify expected earnings trends given longer term rate cycles (long term simulations, core funding utilizations, and EVE simulation). A standard gap report and funding matrix will also be utilized to provide supporting detailed information on the expected timing of cashflow and repricing opportunities.

There are an infinite number of potential interest rate scenarios, each of which can be accompanied by differing economic, political, and regulatory climates; can generate multiple differing behavior patterns by markets, borrowers, depositors, and other market participants; and can last for varying degrees of time. Therefore, by definition, interest rate risk sensitivity cannot be predicted with certainty. Accordingly, the Bancorp's interest rate risk measurement philosophy focuses on maintaining an appropriate balance between theoretical and practical scenarios; especially given the primary objective of the Bancorp's overall asset/liability management process is to facilitate meaningful strategy development and implementation.

Therefore, we model a set of interest rate scenarios capturing the financial effects of a range of plausible rate scenarios, the collective impact of which will enable the Bancorp to clearly understand the nature and extent of its sensitivity to interest rate changes. Doing so necessitates an assessment of rate changes over varying time horizons and of varying/sufficient degrees such that the impact of embedded options within the balance sheet are sufficiently examined.

We utilize a simulation model as our primary tool to assess the direction and magnitude of variations in net interest income and EVE resulting from potential changes in market interest rates. Key assumptions in the model, which we believe are reasonable but which may have a significant impact on results, include: (i) the timing of changes in interest rates; (ii) shifts or rotations in the yield curve; (iii) re-pricing characteristics for market-rate-sensitive instruments; (iv) varying loan prepayment speeds for different interest rate scenarios; and (v) the overall growth and mix of assets and liabilities.

We forecast the next twelve months of net interest income under an assumed environment of gradual changes in market interest rates under various scenarios. The resulting change in net interest income is an indication of the sensitivity of our earnings to directional changes in market interest rates. The simulation also measures the change in EVE, or the net present value of our assets and liabilities, under an immediate shift, or shock, in interest rates under various scenarios, as calculated by discounting the estimated future cash flows using market-based discount rates. We also forecast the impact of immediate and parallel interest rate shocks on net interest income under various scenarios to measure the sensitivity of our earnings under extreme conditions.

In addition to changes in interest rates, the level of future net interest income is also dependent on a number of other variables, including: the growth, composition and absolute levels of loans, deposits, and other earning assets and interest-bearing liabilities; economic and competitive conditions; potential changes in lending, investing and deposit gathering strategies; and client preferences.

Liquidity and Capital Resources

For the Bancorp, liquidity management refers to the ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, and pay dividends and operating expenses. Because profit and liquidity are often conflicting objectives, management attempts to maximize the Bank's net interest margin by making adequate, but not excessive, liquidity provisions. Furthermore, we seek to manage funds so that future profits will not be significantly impacted as funding costs increase. We seek to maintain diversified sources of liquidity that may be used during the ordinary course of business as well as on a contingency basis.

Our primary sources of liquidity are deposits, principal and interest payments on loans and securities, and proceeds from calls, maturities, and sales of securities, subject to market conditions. While maturities and scheduled amortization of loans and securities are predictable sources of liquidity, deposit flows and loan and securities prepayments are greatly influenced by general interest rates, economic conditions, and competition. Our most liquid assets are unencumbered cash and due from banks and unpledged securities classified as available for sale, which could be liquidated, subject to market conditions. In the future, our liquidity position will be affected by the level of customer deposits and payments, as well as acquisitions, dividends, and share repurchases in which we may engage. For the next twelve months, we believe that our existing cash resources will be sufficient to meet the liquidity and capital requirements of our operations.

Changes in the liquidity position result from operating, investing and financing activities. Cash flows from operating activities are generally the cash effects of transactions and other events that enter into the determination of net income. The primary investing activities include loan originations, loan repayments, investments in interest bearing balances in other financial institutions, and the purchase, sale, and maturity of investment securities. Financing activities focus almost entirely on the generation of customer deposits. In addition, the Bancorp utilizes borrowings (i.e., repurchase agreements, FHLB advances and federal funds purchased) as a source of funds.

Although customer deposits remain our preferred funding source, maintaining additional sources of liquidity is part of our prudent liquidity risk management practices. We have the ability to borrow from the FHLB. At June 30, 2024, we had two outstanding advances totaling \$25 million and the ability to borrow up to \$363.1 million from the FHLB. We also have the ability to borrow from the Federal Reserve Bank of Chicago. At June 30, 2024, we had \$60 million in outstanding collateralized advances from the Federal Reserve Bank of Chicago through the BTFFP, which matures March 11, 2025. We plan to utilize existing sources of liquidity and deposits balances on an opportunistic bases to replace remaining BTFFP balance prior to March 11, 2025. At June 30, 2024, cash and cash equivalents were \$83.2 million and secured borrowing capacity at the Federal Reserve Bank totaled \$170.2 million, providing total liquidity sources of \$574.3 million.

The following table shows the Bancorp's sources of liquidity as of June 30, 2024 and December 31, 2023:

	Sources of Liquidity			
	As of June 30, 2024		As of December 31, 2023	
	Outstanding	Additional Capacity	Outstanding	Additional Capacity
FHLB Advances	\$ 25,000	\$ 363,121	\$ -	\$ 592,575
Bank Term Funding and Fed Discount Window	60,000	170,226	80,000	206,440
FHLB Line of Credit	-	25,000	-	25,000
Fed Funds Lines	-	16,000	-	16,000
Total	\$ 85,000	\$ 574,347	\$ 80,000	\$ 840,015

During the six months ended June 30, 2024, cash and cash equivalents decreased by \$2.8 million compared to a \$84.4 million increase for the six months ended June 30, 2023. The primary sources of cash and cash equivalents were change in other borrowings, sales of loans originated for sale, proceeds from the maturity and paydown of securities, and change in repurchase agreements. The primary uses of cash and cash equivalents were loan originations. Cash provided in operating activities totaled \$2.7 million for the six months ended June 30, 2024, compared to cash provided of \$17.1 million for the six months ended June 30, 2023. Cash provided from operating activities was primarily a result of net income and sale of loans originated for sale, offset by loans originated for sale and net change in accrued expenses and other liabilities. Cash provided by investing activities totaled \$42.4 million for the current period, compared to cash used in investing activities of \$10.9 million for the six months ended June 30, 2023. Cash provided by investing activities for the current six-month period was primarily related to net change in loans receivable, proceeds from security sales, and proceeds from the sale leaseback transaction. Cash used in financing activities totaled \$47.9 million during the current period compared to net cash provided by financing activities of \$78.2 million for the six months ended June 30, 2023. The net cash used in financing activities was primarily the result of net change in deposits and change in other borrowed funds, offset against borrowings of FHLB advances. On a cash basis, the Bancorp paid dividends on common stock of \$1.0 million for the six months ended June 30, 2024, and \$2.7 million for the six months ended June 30, 2023.

At June 30, 2024, outstanding commitments to fund loans totaled \$261.4 million. Approximately 55.4% of the commitments were at variable rates. Standby letters of credit, which are conditional commitments issued by the Bancorp to guarantee the performance of a customer to a third-party, totaled \$17.0 million at June 30, 2024. Management believes that the Bancorp has sufficient cash flow and borrowing capacity to fund all outstanding commitments and letters of credit, while maintaining proper levels of liquidity.

Management strongly believes that maintaining a high level of capital enhances safety and soundness. During the six months ended June 30, 2024, stockholders' equity increased by \$1.3 million (0.9%). During the six months ended June 30, 2024, stockholders' equity was primarily increased by net income of \$9.4 million offset by other comprehensive losses as the result of market value changes within the securities portfolio of \$7.3 million and dividends declared of \$1.0 million. On April 24, 2014, the Bancorp's Board of Directors authorized a stock repurchase program to repurchase up to 50,000 shares of the Bancorp's outstanding common stock, from time to time and subject to market conditions, on the open market or in privately negotiated transactions. The stock repurchase program does not expire and is only limited by the number of shares that can be purchased. The stock repurchase program will be reviewed annually by the Board of Directors. No shares were repurchased under the program during the first six months of 2024 or 2023. During 2024, 14,713 restricted stock shares vested under the Incentive Plan outlined in Note 10 of the financial statements, of which 3,364 of these shares were withheld in the form of a net surrender to cover the withholding tax obligations of the vesting employees. The repurchase of these surrendered shares is considered outside of the scope of the formal board approved stock repurchase program.

The Bank is subject to risk-based capital guidelines adopted by the FDIC. The regulations divide capital into multiple tiers. The first tier (Common Equity Tier 1 Capital) includes common shareholders' equity, after deductions for various items including goodwill and certain other intangible assets, and after certain other adjustments. Common Equity Tier 1 Capital also includes accumulated other comprehensive income (for organizations that do not make opt-out elections). The next tier (Tier 1 Capital) is comprised of Common Equity Tier 1 Capital plus other qualifying capital instruments such as perpetual noncumulative preferred stock and junior subordinated debt issued to trusts, and other adjustments. The third tier (Tier 2 Capital) includes instruments such as subordinated debt that have a minimum original maturity of at least five years and are subordinated to the claims of depositors and general creditors, total capital minority interest not included in Tier 1 Capital, and limited amounts of the allowance for credit losses, less applicable regulatory adjustments and deductions. The Bank is required to maintain a Common Equity Tier 1 Capital ratio of 4.5%, a Tier 1 Capital ratio of 6%, and a Total Capital ratio (comprised of Tier 1 Capital plus Tier 2 Capital) of 8%. In addition, the capital regulations provide for a minimum leverage ratio (Tier 1 capital to adjusted average assets) of 4%.

In addition to establishing the minimum regulatory capital requirements, the regulations limit capital distributions by the institution and certain discretionary bonus payments to management if an institution does not hold a "capital conservation buffer" consisting of 2.5% of common equity Tier 1 capital to risk-weighted assets above the amount necessary to meet its minimum risk-based capital requirements.

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 required the FRB to set minimum capital levels for bank holding companies that are as stringent as those required for insured depository subsidiaries. However, under the FRB's "Small Bank Holding Company" exemption from consolidated bank holding company capital requirements, bank holding companies and savings and loan holding companies with less than \$3 billion in consolidated assets, such as the Bancorp, are exempt from consolidated regulatory capital requirements, unless the FRB determines otherwise in particular cases.

During the six months ended June 30, 2024, the Bancorp's and Bank's risk weighted assets continued to be negatively impacted by regulatory requirements regarding collateralized debt obligations. The regulatory requirements state that for collateralized debt obligations that have been downgraded below investment grade by the rating agencies, increased risk-based asset weightings are required. The Bancorp currently holds pooled collateralized debt obligations with a cost basis of \$2.2 million. These investments currently have ratings that are below investment grade. As a result, approximately \$8.2 million of risk-based assets are generated by the collateralized debt obligations in the Bancorp's and Bank's total risk based capital calculation.

In addition, the following table shows that, at June 30, 2024, and December 31, 2023, the Bank's capital exceeded all applicable regulatory capital requirements as set forth in 12 C.F.R. § 324. The dollar amounts are in millions.

(Dollars in millions)

June 30, 2024	Actual		Minimum Required For Capital Adequacy Purposes		Minimum Required To Be Well Capitalized Under Prompt Corrective Action Regulations	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Common equity tier 1 capital to risk-weighted assets	\$ 176.3	10.94%	\$ 72.5	4.50%	\$ 104.7	6.5%

The Bancorp's ability to pay dividends to its shareholders is largely dependent upon the Bank's ability to pay dividends to the Bancorp. Under Indiana law, the Bank may pay dividends from its undivided profits (generally, earnings less losses, bad debts, taxes and other operating expenses) as is considered expedient by the Bank's Board of Directors. However, the Bank must obtain the approval of the Indiana Department of Financial Institutions (DFI) if the total of all dividends declared by the Bank during the current year, including the proposed dividend, would exceed the sum of retained net income for the year to date plus its retained net income for the previous two years. For this purpose, "retained net income," means net income as calculated for call report purposes, less all dividends declared for the applicable period. An exemption from DFI approval would require that the Bank have been assigned a composite uniform financial institutions rating of 1 or 2 as a result of the most recent federal or state examination; the proposed dividend would not result in a Tier 1 leverage ratio below 7.5%; and that the Bank not be subject to any corrective action, supervisory order, supervisory agreement, or board approved operating agreement. In addition, under the terms of the MOU, the Bank must seek regulatory approval prior to paying cash dividends. See "– Regulatory Developments Regarding the Bancorp and the Bank – Memorandum of Understanding" above. Moreover, the FDIC and the Federal Reserve Board may prohibit the payment of dividends if it determines that the payment of dividends would constitute an unsafe or unsound practice in light of the financial condition of the Bank. Assuming receipt of regulatory approval for all cash dividends declared by the Bank under the terms of the MOU, the aggregate amount of dividends that the Bank is eligible to declare in 2024, without the need for qualifying for a further exemption or prior DFI approval under the terms of Indiana law described above, is its 2024 net income. On June 21, 2024, the Board of Directors of the Bancorp declared the second quarter dividend of \$0.12 per share. The Bancorp's second quarter dividend was paid to shareholders on August 1, 2024 to shareholders of record on July 19, 2024.

Results of Operations - Comparison of the Quarter Ended June 30, 2024 to the Quarter Ended June 30, 2023

For the quarter ended June 30, 2024, the Bancorp reported net income of \$143 thousand, compared to net income of \$2.4 million for the quarter ended June 30, 2023, a decrease of \$2.3 million (94.1%). For the quarter ended June 30, 2024, the ROA was 0.03%, compared to 0.46% for the quarter ended June 30, 2023. The ROE was 0.39% for the quarter ended June 30, 2024, compared to 7.05% for the quarter ended June 30, 2023.

Information relating to the average consolidated balance sheet and the yield on average earning assets and cost of average liabilities for the periods indicated are in the following table. Dividing the related interest, on an annualized basis, by the average balance of assets or liabilities drives the disclosed rates. Average balances are derived from daily balances.

Total interest bearing liabilities	1,582,335	\$ 10,073	2.55	1,619,857	\$ 7,574	1.87
Non-interest bearing deposits	291,618			315,523		
Other noninterest bearing liabilities	45,029			31,001		
Total liabilities	1,918,982			1,966,381		
Total stockholders' equity	145,640			138,268		
Total liabilities and stockholders' equity	<u>\$ 2,064,622</u>			<u>\$ 2,104,649</u>		
Return on average assets	0.03%			0.46%		
Return on average equity	0.39%			7.05%		
Net interest margin (average earning assets)	2.53%			2.88%		
Net interest margin (average earning assets) - tax equivalent	2.67%			3.03%		
Net interest spread	2.09%			2.56%		
Ratio of interest-earning assets to interest-bearing liabilities	1.21x			1.01x		

Net interest income for the quarter ended June 30, 2024, was \$12.1 million, a decrease of \$1.5 million (11.4%), compared to \$14.0 million for the quarter ended June 30, 2023. The weighted-average yield on interest-earning assets was 4.64% for the quarter ended June 30, 2024, compared to 4.43% for the quarter ended June 30, 2023. The weighted-average cost of funds for the quarter ended June 30, 2024, was 2.55% compared to 1.87% for the quarter ended June 30, 2023. The impact of the 4.64% return on interest-earning assets and the 2.55% cost of funds resulted in an interest rate spread of 2.09% for the current quarter, a decrease from the 2.56% spread for the quarter ended June 30, 2023. On a tax adjusted basis, the Bancorp's net interest margin was 2.67% for the quarter ended June 30, 2024, compared to 3.03% for the quarter ended June 30, 2023. The Bancorp believes that it is a standard practice in the banking industry to present net interest margin and net interest income on a fully-taxable equivalent basis, as these measures provide useful information to make peer comparisons. Tax adjusted net interest margin represents a non-GAAP financial measure. See the non-GAAP reconciliation table immediately below and the section captioned "Non-GAAP Financial Measures" for further disclosure regarding non-GAAP financial measures.

(Dollars in thousands)
(unaudited)

	Quarter Ended,	
	June 30, 2024	June 30, 2023
Calculation of tax adjusted net interest margin		
Net interest income	\$ 12,054	\$ 14,039
Tax adjusted interest on securities and loans	677	748
Adjusted net interest income	12,731	14,787
Total average earning assets	1,906,998	1,950,774
Tax adjusted net interest margin	<u>2.67%</u>	<u>3.03%</u>

The decreased net interest income and net interest margin for the quarter ended June 30, 2024, was primarily the result of higher cost of funds resulting from the higher rate environment year over year. We anticipate the compression seen in the current quarter to continue, unless target rates decrease, and our interest-bearing liabilities are able to be repriced at those lower rates.

The following table shows the change in noninterest income for the quarter ending June 30, 2024, and June 30, 2023.

(Dollars in thousands, except per share data)	Quarter Ended June 30,		QTD 6/30/2024 vs. 6/30/2023	
	2024	2023	\$ Change	% Change
Noninterest income:				
Fees and service charges	\$ 1,257	\$ 1,832	\$ (575)	-31.4%
Wealth management operations	763	626	137	21.9%
Gain on sale of loans held-for-sale, net	320	274	46	16.8%
Loss on sale of securities, net	-	(48)	48	100.0%
Increase in cash value of bank owned life insurance	212	201	11	5.5%
Gain (loss) on sale of real estate	15	-	15	0.0%
Other	6	121	(115)	-95.0%
Total noninterest income	<u>\$ 2,573</u>	<u>\$ 3,006</u>	<u>\$ (433)</u>	<u>-14.4%</u>

The decrease in fees and service charges is primarily the result of lower loan interest rate swap fees occurring during the year offset by higher income from Wealth management.

The following table shows the change in noninterest expense for the quarter ending June 30, 2024, and June 30, 2023.

(Dollars in thousands, except per share data)	Quarter Ended June 30,		QTD 6/30/2024 vs. 6/30/2023	
	2024	2023	\$ Change	% Change
Noninterest expense:				
Compensation and benefits	\$ 7,037	\$ 7,098	\$ (61)	-0.9%
Occupancy and equipment	2,120	1,636	484	29.6%
Data processing	1,135	1,407	(272)	-19.3%
Marketing	212	159	53	33.3%
Federal deposit insurance premiums	397	572	(175)	-30.6%
Other	3,516	3,123	393	12.6%
Total noninterest expense	<u>\$ 14,417</u>	<u>\$ 13,995</u>	<u>\$ 422</u>	<u>3.0%</u>

Increases in non-interest expenses during the quarter ended June 30, 2024 were primarily attributable to higher operating cost in occupancy and equipment, non-recurring consulting fees and legal expenses offset by lower data processing expenses and federal deposit insurance premiums. Management also continues to maintain discipline in staffing. Compensation and benefits expense declined by 0.9% for the quarter ended June 30, 2024, compared to June 30, 2023.

The benefit for income taxes was \$9 thousand for the quarter ended June 30, 2024, as compared to the provision of \$98 thousand for the quarter ended June 30, 2023. The effective tax rate was negative 6.7% for the quarter ended June 30, 2024, as compared to 3.9% for the quarter ended June 30, 2023. The Bancorp's lower current effective tax rate for the quarter ended June 30, 2024, is a result of higher tax preferred income relative to taxable income.

Results of Operations - Comparison of the Six Months Ended June 30, 2024 to the Six Months Ended June 30, 2023

For the six months ended June 30, 2024, the Bancorp reported net income of \$9.4 million, compared to net income of \$4.7 million for the six months ended June 30, 2023, an increase of \$4.7 million (101.4%). For the six months ended June 30, 2024, the ROA was 0.91%, compared to 0.45% for the six months ended June 30, 2023. The ROE was 12.81% for the six months ended June 30, 2024, compared to 6.74% for the six months ended June 30, 2023.

Information relating to the average consolidated balance sheet and the yield on average earning assets and cost of average liabilities for the periods indicated are in the following table. Dividing the related interest, on an annualized basis, by the average balance of assets or liabilities derives the disclosed rates. Average balances are derived from daily balances.

Total liabilities	1,933,623			1,947,091		
Total stockholders' equity	147,152			138,916		
Total liabilities and stockholders' equity	<u>\$ 2,080,775</u>			<u>\$ 2,086,007</u>		
Return on average assets	0.91%			0.45%		
Return on average equity	12.81%			6.74%		
Net interest margin (average earning assets)	2.47%			2.98%		
Net interest margin (average earning assets) - tax equivalent	2.62%			3.13%		
Net interest spread	2.04%			2.69%		
Ratio of interest-earning assets to interest-bearing liabilities	1.20x			1.01x		

Net interest income for the six months ended June 30, 2024, was \$23.8 million, a decrease of \$4.9 million (17.0%), compared to \$28.7 million for the six months ended June 30, 2023. The weighted-average yield on interest-earning assets was 4.58% for the six months ended June 30, 2024, compared to 4.33% for the six months ended June 30, 2023. The weighted-average cost of funds for the six months ended June 30, 2024, was 2.54% compared to 1.64% for the six months ended June 30, 2023. The impact of the 4.58% return on interest-earning assets and the 2.54% cost of funds resulted in an interest rate spread of 2.04% for the six months ended June 30, 2024, a decrease from the 2.97% spread for the six months ended June 30, 2023. On a tax adjusted basis, the Bancorp's net interest margin was 2.62% for the six months ended June 30, 2024, compared to 3.13% for the six months ended June 30, 2023. The Bancorp believes that it is a standard practice in the banking industry to present net interest margin and net interest income on a fully-taxable equivalent basis, as these measures provide useful information to make peer comparisons. Tax adjusted net interest margin represents a non-GAAP financial measure. See the non-GAAP reconciliation table immediately below and the section captioned "Non-GAAP Financial Measures" for further disclosure regarding non-GAAP financial measures.

(Dollars in thousands)

(unaudited)

	Six months ended,	
	June 30, 2024	June 30, 2023
Calculation of tax adjusted net interest margin		
Net interest income	\$ 23,834	\$ 28,707
Tax adjusted interest on securities and loans	1,376	1,504
Adjusted net interest income	25,210	30,211
Total average earning assets	1,926,251	1,929,826
Tax adjusted net interest margin	<u>2.62%</u>	<u>3.13%</u>

The decreased net interest income and net interest margin for the six months ended June 30, 2024, was primarily the result of higher cost of funds resulting from the higher rate environment year over year. We anticipate the compression in net interest income and net interest margin seen in the first six months of the year may continue, unless target rates decrease, and our interest-bearing liabilities are able to be repriced at those lower rates.

The following table shows the change in noninterest income for the six months ending June 30, 2024, and June 30, 2023.

(Dollars in thousands, except per share data)	Six Months Ended June 30,		YTD	
	2024	2023	6/30/2024 vs. 6/30/2023	
			\$ Change	% Change
Noninterest income:				
Fees and service charges	\$ 2,410	\$ 3,143	\$ (733)	-23.3%
Wealth management operations	1,396	1,240	156	12.6%
Gain on sale of loans held-for-sale, net	472	537	(65)	-12.1%
Loss on sale of securities, net	(531)	(48)	(483)	-1006.3%
Increase in cash value of bank owned life insurance	405	380	25	6.6%
Gain (loss) on sale of real estate	11,873	(15)	11,888	79253.3%
Other	24	377	(353)	-93.6%
Total noninterest income	\$ 16,049	\$ 5,614	\$ 10,435	185.9%

The increase in other noninterest income was due primarily to the gain on the sale-leaseback transaction executed on February 22, 2024 with MountainSeed, Real Estate Services, LLC (the "Buyer"). The decrease in fees and service charges is primarily the result of decreased fee income from interest rate swap transactions occurring during the six month period. The decrease in gain on sale of loans, for the six-month period, is the result of lower consumer demand for fixed-rate mortgage products in the higher-rate environment. The increase in the loss on the sale of securities, net for the six-month period related to management election to sell certain securities for interest rate risk purposes and redeploy proceeds into higher yielding assets.

The following table shows the change in noninterest expense for the six months ending June 30, 2024, and June 30, 2023.

(Dollars in thousands, except per share data)	Six Months Ended June 30,		YTD	
	2024	2023	6/30/2024 vs. 6/30/2023	
			\$ Change	% Change
Noninterest expense:				
Compensation and benefits	\$ 14,146	\$ 14,636	\$ (490)	-3.3%
Occupancy and equipment	4,035	3,326	709	21.3%
Data processing	2,305	2,380	(75)	-3.2%
Marketing	370	414	(44)	-10.6%
Federal deposit insurance premiums	898	1,037	(139)	-13.4%
Other	7,667	6,429	1,238	19.3%
Total noninterest expense	\$ 29,421	\$ 28,222	\$ 1,199	4.2%

Increases in non-interest expenses during the six months ended June 30, 2024, were primarily attributable to accounting and service fees associated with higher non-recurring consulting and legal expenses. The increase in occupancy and equipment expenses for the six months ended June 30, 2024, is primarily related to higher operating costs and additional lease expense associated with sale leaseback transaction. Management also continues to maintain discipline in staffing. Compensation and benefits expense declined by 3.3% for the six months ended June 30, 2024, compared to June 30, 2023.

The provision for income taxes was \$963 thousand for the six months ended June 30, 2024, as compared to the provision of \$419 thousand for the six months ended June 30, 2023. The effective tax rate was 9.3% for the six months ended June 30, 2024, as compared to 8.2% for the six months ended June 30, 2023. The Bancorp's year-to-date effective tax rate for the six months ended June 30, 2024, was increased primarily due to an increase in income along with a reduction in the overall tax benefits recognized during the period.

Critical Accounting Policies

The notes to the consolidated financial statements included in Item 8 of the Bancorp's Annual Report on Form 10-K for 2023 contain a summary of the Bancorp's significant accounting policies. Certain of these policies are important to the portrayal of the Bancorp's financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain.

Forward-Looking Statements

Statements contained in this report that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words or phrases “would be,” “will allow,” “intends to,” “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” or similar expressions are also intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act. The Bancorp cautions readers that forward-looking statements, including without limitation those relating to the Bancorp’s future business prospects, merger and acquisition activities, interest income and expense, net income, liquidity, and capital needs are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to, among other things, factors identified in this report, including those identified in the Bancorp’s 2023 Form 10-K.

Non-GAAP Financial Measures

This filing includes certain financial measures that are identified as non-GAAP, including adjusted net interest income and tax adjusted net interest margin. The Bancorp provides these non-GAAP performance measures because they are used by management to evaluate and measure the Bancorp’s performance, which the Bancorp believes also is useful to assist investors in assessing the Bancorp’s operating performance. Where non-GAAP financial measures are used in this report, the most comparable GAAP measure, as well as the reconciliation to the most comparable GAAP measure, can be found in the tables referenced herein.

The adjusted net interest income and tax-adjusted net interest margin measures recognize the income tax savings when comparing taxable and tax-exempt assets. Interest income and yields on tax-exempt securities and loans are presented using the current federal income tax rate of 21%. Management believes that it is standard practice in the banking industry to present net interest income and net interest margin on a fully tax-equivalent basis and that it may enhance comparability for peer comparison purposes.

Although these non-GAAP financial measures are frequently used by investors to evaluate a financial institution’s business and performance, they have limitations as analytical tools and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In addition, these non-GAAP financial measures may differ from those used by other financial institutions to assess their business operations and performance.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

The Bancorp maintains disclosure controls and procedures (as defined in Sections 13a – 15(e) and 15d – 15(e)) of regulations promulgated under the Securities Exchange Act of 1934 (the “Exchange Act”) that are designed to ensure that information required to be disclosed by the Bancorp in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. These disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by the Bancorp in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Bancorp’s management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. The Bancorp’s Chief Executive Officer and Chief Financial Officer evaluate the effectiveness of the Bancorp’s disclosure controls and procedures as of the end of each quarter. Based on that evaluation as of June 30, 2024, the Bancorp’s Chief Executive Officer and Chief Financial Officer have concluded that such disclosure controls and procedures were effective as of that date in ensuring that information required to be disclosed by the Bancorp under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms.

(b) Changes in Internal Control Over Financial Reporting.

There was no change in the Bancorp’s internal control over financial reporting identified in connection with the Bancorp’s evaluation of controls that occurred during the quarter ended June 30, 2024, that has materially affected, or is reasonably likely to materially affect, the Bancorp’s internal control over financial reporting.

PART II - Other Information

Item 1. Legal Proceedings

The Bancorp and its subsidiaries, from time to time, are involved in legal proceedings in the ordinary course of business against its debtors and are defendants in legal actions arising from normal business activities. Management, after consultation with legal counsel believes that the ultimate liabilities, if any, resulting from these actions will not have a material adverse effect on the financial position of the Bank or on the consolidated financial position of the Bancorp.

Item 1A. Risk Factors

Not Applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 24, 2014 the Bancorp's Board of Directors authorized a stock repurchase program to repurchase up to 50,000 shares of the Bancorp's outstanding common stock, from time to time and subject to market conditions, on the open market or in privately negotiated transactions. The stock repurchase program does not expire and is only limited by the number of shares that can be purchased. The stock repurchase program will be reviewed annually by the Board of Directors. No shares were repurchased during the quarter ended June 30, 2024 under the stock repurchase program.

Period	Total Number of Shares Purchased (2)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Program(1)
January 1, 2024 – January 31, 2024	-	N/A	-	48,828
February 1, 2024 – February 28, 2024	-	N/A	-	48,828
March 1, 2024 – March 31, 2024	2,816	\$ 24.11	-	48,828
April 1, 2024 – April 30, 2024	-	N/A	-	48,828
May 1, 2024 – May 31, 2024	76	\$ 24.48	-	48,828
June 1, 2024 – June 30, 2024	472	\$ 24.55	-	48,828

- (1) The stock repurchase program was announced on April 24, 2014, whereby the Bancorp is authorized to repurchase up to 50,000 shares of the Bancorp's common stock outstanding. There is no express expiration date for this program.
- (2) The number of shares above includes shares of common stock reacquired from the Bancorp's executive officers and employees to satisfy the tax withholding obligations on restricted stock awards granted under the Bancorp's 2015 Stock Option and Incentive Plan. For the six months ended June 30, 2024, 3,364 shares were reacquired at an average per share price of \$24.18 pursuant to these tax withholding transactions.

Item 3. Defaults Upon Senior Securities

There are no matters reportable under this item.

Item 4. Mine Safety Disclosures

Not Applicable

Item 5. Other Information

None

Item 6. Exhibits

CERTIFICATION PURSUANT TO
RULE 13a-14(a)/15d-14(a) OF THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Benjamin J. Bochnowski, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Finward Bancorp;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report on Form 10-Q of Finward Bancorp (the "Company") for the quarterly period ended June 30, 2024, as filed with the Securities and Exchange Commission (the "Report"), each of Benjamin J. Bochnowski, President and Chief Executive Officer of the Company, and Benjamin L. Schmitt, Executive Vice President, Chief Financial Officer and Treasurer of the Company, hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
